Some of the best brains in the world are, today, struggling tremendously to bring unity and peace to our world, under the conviction that, unless this is achieved, the human race will have run its course. But brains, alone, are not enough. It is the spirit—attitudes—that matters most. The only permanent bases for peace and unity are the principles laid down by the Man of Galilee. The purpose of the church is to teach these principles and get them expressed in the actions of all people. To each of us comes the call to be a partner in this task. "Forsake not the assembling of yourselves together as the manner of some is." May we all develop the habit suggested by this New Testament statement and be with some group, every Sunday, meeting to worship and work with the Father of us all. It is only by working with Him that we can learn to work with and live peaceably with one another.

To Keep Well—

An Upset Stomach Sometimes Is a Warning

Often an upset stomach is due to too frequent or overeating, the eating of unbalanced meals or, perhaps, to the midnight snack that failed to digest. For such ailments you will always find remedies in our store that should be kept in your medicine cabinet.

However, an upset stomach sometimes is a warning that not all is well in our physical makeup. If the patient does not respond readily to home remedies, call your physician for an accurate diagnosis. And, for careful compounding with fresh, potent drugs, always bring his prescription to us.

Cold Weather Demands A Change In Your Diet

There's no doubt about it—and any mother will tell you—that diets change with the weather; that during an extremely cold spell our systems demand foods that will give warmth and heat to our bodies.

In our store you will find just the foods that you should be serving to your family these cold, winter days. Our long experience in the grocery business—we've served three generations in Tecumseh—has taught us to be prepared for the demands made upon housewives and mothers in these changing seasons.

Dear Sirs:

The shortage of wire, cotton and porcelain, all necessary items in building transformers, has made it necessary for us to delay your shipment again. We regret this further delay since we know your urgent need for this equipment.

(From a transformer equipment company)

This is only one of the many letters I receive everyday, delaying the shipments of badly needed construction materials.

— Reddy

Yes, folks, this kind of letter will explain to you better than I can, some of the reasons why I am having difficulty today extending electric lines and making new service connections. In many cases equipment is harder to get now than during the war. If you are one of those persons waiting for service, I want you to know that my company is doing *all* it can at this time to *speed service to you.*

Near Zero Temperatures Put Your Car To A Real Test!

There is a big difference between a temperature of 90 degrees in the shade and a few degrees above zero. Yet we expect our cars to operate efficiently in all temperatures—and usually we do little in the way of adjustment to assure such operation.

If your car starts hard, if it "pulls" hard, if it grunts and groans in rigid temperatures, we suggest that you bring it to us for winter service. We'll adjust it and lubricate it so that it will give summer-time operation in the winter.

REAL ESTATE and PERSONAL

Auction Auction!

303 ACRES OF LAND IN THREE TRACTS

Owing to the death of my husband, I have commissoned Victor Scharp & Son of Osseo, Michigan, to advertise and sell the farms and all personal property at public auction on the farm known as the Jorgenson Farm, located five miles west of Adrian on US-223, and two miles north or three miles south of Wolf Creek, on

Thursday, Jan. 16, 1947

Starting Promptly at 10 A. M. Farms Will Sell at 1 P. M.

TRACT No. 1---Consisting of 110 Acres.

BUILDINGS—Eight room house and bath, all modern. Good basement, shingled and painted on outside, well arranged and a real nice home. Landscaped lawn, some small fruit and vineyard. Electricity in all buildings. Pressure water system. BARN, 34 x 100 with hip roof, built new six years ago, steel roof, nice barn floor, 20 stanchions for cows, cement floors, two large box stalls and covered yard. Large cement silo. HORSE BARN—30 x 40 with hip roof, built-on sheds on both sides with cement floor. New double corn crib, 24 x 70. New hog house, 16 x 40, all cement floors. New grainery, 20 x 30. New double garage. Cement block milk house with coal heater and hot water tank. These buildings are well arranged and must be seen to be appreciated.

SOIL—Clay loam, all tillable but two acres, lays slightly rolling.

TRACT No. 2---Consisting of 80 Acres, just across the road from Tract No. 1.

BUILDINGS—Seven room house, good basement, well and cistern, woodshed attached, garage, corn crib and brooderhouse. Nice lawn and shade, also electricity. This house is in good condition. This farm should go with the 110 acres as this would make a very nice tenant house and is close to the main barn.

SOIL—Gravel and clay loam, lays nearly level, all tillable except a nice woodlot with some timber. Creek running through woodlot.

TRACT No. 3---Consisting of 113 Acres; lays one-half mile east of Tract No. 1.

BUILDINGS—Good seven-room house with new furnace last summer, new plaster and all newly decorated. Water piped to house, electric motor and pumpjack, large garage at side door, milk house, nice lawn and shade trees. BASEMENT BARN, 32 x 50, with new roof and siding. Wood stave silo, bull barn. Horsebarn, 20 x 40. Tool house 24 x 36, grainery, 20 x 24, hog house, 20 x 40, all cemented, chicken house, 20 x 40, double garage and utility barn, 16 x 24.

SOIL—Clay loam and some muck soil, lays slightly rolling, large woodlot with some timber, creek running through woodlot. About 80 acres tillable. These buildings are all in very good shape on all tracts with good roofs, walls and siding and well painted. Farms are well tiled and fenced. Here's an opportunity for someone. Had it not been for the death of Mr. Jorgenson, these good farms would not be for sale. They are located in one of the better rural sections of Lenawee county. All farms in high state of cultivation with all rural conveniences. Look these farms over, be here sale day and buy one or all of these farms as they will be sold on attractive terms anyone should like. On good road just two miles from US-223. Excellent neighborhood. These farms will be sold separately and then as a whole.

SALES TAX DIVERSION WORRIES STATE LEGISLATURE

Voters' Slap at Inflation Seen as Boomerang

LANSING — How to maintain public services of government, at home and elsewhere, despite today's postwar inflation which is yet to reach it crest, poses a top problem of acute proportions for Michigan's new state legislature.

Gov. Sigler has told legislators that it was up to them to lead Michigan out of the financial wilderness created by the voters' diversion of 76 per cent of state sales tax revenues to home governments.

Regardless of what the legislature finally decides to do, it is apparent that a lot of people are going to be dissatisfied. They will be dissatisfied because they are dissatisfied with today's inflation —the root of the trouble.

Actually, the voters' dissatisfaction on Nov. 5 was prompted as much by the AFFECTS of inflation as by anything else.

We registered our protest against shortages, strikes and high prices by marking our ballot accordingly. Government is blamed for affects of inflation. In hard times the reverse has been true: Business is . . . responsible.

It is doubtful that the sales tax amendment would have been adopted if it had not been for the affects of inflation. Retail prices are mounting, ever higher. Department stores expect an all-time record in sales this year—which means more tax revenues for the state treasury at Lansing. This spiral in prices has kept tax revenues ahead of operating costs. On July 1, 1945 the state treasury had a surplus of $5,219,000. Twelve months later the surplus had grown to $21,532,000—an increase of more than $16,000.000.

Proponents of the sales tax amendment made capital of the fact that the treasury had cash balances in excess of $125,000,000—all of which was sufficient proof, it was implied, that the state had too much money on hand. These idle millions, so the logic went, should be returned back home to pay for increased costs of cities, schools and other home governments.

While it was true that the cash balances at Lansing were in excess of $125,000,000, it was equally true that only $21,532,000 of this sum was available to the legislature for appropriations. All other funds have been tagged, restricted, appropriated, ear-marked — choose your own word for it. The veterans' trust fund, for example, is $50,000,000; state highway fund, $$11,453,000; primary school fund, $14,417,000; appropriation balances for buildings and improvements (delayed due to lack of materials, etc.), $27,881,000.

Now comes the news at Lansing that inflation of operating costs—higher cost of food, supplies, labor, etc. — will require higher appropriations for state departments and state institutions, such as prisons, hospitals and colleges. Requests for legislative appropriations have risen to $212,000,000 for the coming fiscal year. However, revenues are estimated at only $144,000,000 because of the diversion of 76 per cent of the sales tax revenue back to home governments.

The difference is $68,000,000. The final amount may be less or above.

Clarence W. Lock, deputy revenue commissioner, estimates the prospective deficit at $55,000,000. He points out that state aid to local governments and public services has mouned from $41,000,000 in 1932 to $180,000,000 by last June 30. It will go higher next year at a time when the state is being asked to finance a veterans bonus, maintain facilities for education of veterans at colleges, and otherwise provide services all of whjch have been authorized by state legislators elected from home communities.

Irving Fisher, noted economist, warned Nov. 20 that we are living in a fools' paradise due to governmental mismanagement of money—sale of too many government bonds to banks in return for newly created credit—checkbook money or "invisible greenbacks"—which now total $110 BILLION DOLLARS. The banks' demand deposits last week were in excess of $39 BILLIONS. That's a lot of money, a lot of pressure, at a time when shortages are widespread.

James Truslow Adams, noted historian and writer, declared Nov. 19 that "the next crash will make 1929 look like a piker." Listen to this:

" "After every war, eventually the loss of capital goods has to be made good, and it can only be made good the hard way. In this World War we have destroyed more capital goods than ever before in the history of the world, and the crash will be correspondingly great."

Randall R. Penhale, state director of the school savings program sponsored by the U.S. treasury department, dropped in at the writer's office last week to discuss the need for thrift in today's period of fantastic inflation. Penhale's remedy: Buy only what you actually need; save as much money as you can. Today's inflation is certain to be followed by times of great distress.

THE TECUMSEH HERALD

NINETY-SEVENTH YEAR—NUMBER EIGHT | TECUMSEH, MICHIGAN, THURSDAY, JANUARY 16, 1947 | FIVE CENTS PER COPY

YOUR CASH CAN FIGHT INFANTILE PARALYSIS!

Milk Bottle Collars Make Money-Giving Easy

Would you give a dollar, a half-dollar or perhaps more, to help ease the pain, suffering and fear of many thousands who will be struck down by infantile paralysis during the next year? You wouldn't stop at a quarter or a half, would you, if you knew that your money would give these victims the promise of a happy, healthful, normal future, instead of permitting them to be abandoned to lives of deformity?

That, briefly, is what Bruce W. Hoffman, Meyers Aircraft Co., executive and chairman of the Sister Kenny campaign for funds in Tecumseh, believes. He thinks that Tecumseh will over-subscribe its $500 quota to the Elizabeth Kenny Foundation, Inc., when it is realized that every dollar contributed will be used to fight polio, and that one-half of all funds given locally will remain in Michigan. Funds raised will be used to provide facilities for battling the disease, and train an army of expert Kenny technicians, provide opportunity to indoctrinate physicians and surgeons from all parts of the country and to ultimately establish clinics throughout the country where the Kenny treatment can be made available to all victims of the disease.

Top-flight names in the country are linked with the movement to raise funds for the Kenny Foundation. Included in the list are Bing Crosby, Kate Smith and Rosalind Russell. There is a nation-wide determination to stamp out the dread disease, and to relieve its victims of suffering.

Tecumseh, Mr. Hoffman pointed out, is asked to contribute only a small amount to the campaign. The local quota is only $500, and he believes that it will be over-subscribed.

That every family locally may have an opportunity to give to this worth-while movement, arrangements have been made with the Tecumseh Dairy and the Driggs Dairy, distributors of milk here, and next Friday and Saturday mornings, customers will find collars on their milk bottles, suitable for returning a contribution. All that need be done is to place the family's gift in the prepared collar and attach it to the empty milk bottle that will be returned to the dairy on the milkman's trip, Sunday or Monday. The milkman will turn the money over to the dairy and in turn it will be given to the Foundation.

"Infantile hasn't struck hard in Tecumseh or Lenawee county for many years," Mr. Hoffman pointed out, "but we never know when it will. If one life is spared as the result of Tecumseh's contribution, we will be more than repaid for our efforts and our expenditures. I trust that Tecumseh will give generously. Certainly, it is for a very worthy cause."

Mr. Hoffman expressed his appreciation to the milk distributors for their excellent cooperation in the campaign. He said that similar collections are being made in other cities in Michigan.

Indians Humble Clinton Redskins

VISITING REDSKINS DROP GAME BY 48-24 SCORE; ADDISON HERE FRIDAY NIGHT

The Indians defeated the Blissfield Sugar Boys on the cage court there, Tuesday evening, by a 31-25 score. Tecumseh had a little trouble getting started but led at half-time, 23-15. Sisson and Hammack were high score men. The Junior Braves were victorious in a preliminary game but the Reserves fell again by a 27-21 score.

By Jim Sisson

Coach Myles Runk's cagers pushed what was supposed to have been a close fought contest into a complete rout as they played the victory march to the Clinton Redskins to the tune of a 48-24 score on the high school court here, Friday evening. The Tecumseh gymnasium was packed with over 600 thrill awaiting fans, but only the Indian backers were enthused in the contest.

Tomorrow evening, (Friday), the Addison Panthers will invade the Tecumseh court for a tough scrap with the perfect-score Indians. The Addison team is coming to Tecumseh with a determination to upset the Indians' scoring, and a battle-royal is expected.

The local quintet steamed into high gear in the opening moments and by the first eight minute interval had compiled 18 markers to the baffled Clinton lads four. The second stanza revealed little change and the Warriors topped the halftime score 30-9.

It was certainly an "on" night for the Orange and Black; the Runk aggregation was hot, plenty hot, but not so that they couldn't miss the hoop. Tecumseh failed on many shots but the ball handling went without a hitch and the attempts were so numerous that it became impossible not to run up the scoreboard.

The final half netted the home town boys 18 more counters to total the 48 with the reserves seeing plenty of action in the fourth quarter. Acting captain for the game, LaMar Cheever had a big night for himself as he flipped in seven field goals for 14 points and high scoring honors.

Ben Hammack set the stage for many a goal with his clever ball handling and collected nine markers for himself. The remaining members of the squad worked in together in the evenly divided tallying. Bob Seidel, Clinton forward, dropped in 11 points to lead the Redskins' futile efforts in their third defeat of the schedule.

The visiting reserve five made the evening a little brighter for the Redskin followers as they came from behind to trip Dave Dick's quintet in overtime 28-27.

Crowd Expected At "Town Hall"

FIRST OF ROUND-TABLE-DISCUSSION SERIES TO HEAR OF ATOMIC ENERGY

Atomic energy, and how it may be converted to peace-time uses instead of war-time destruction will be the topic discussed at the first Town Hall series meeting, next Monday evening a 8 o'clock at the high school auditorium. There is no admission charged for these meetings, the expense of the project being underwritten by the several clubs of the village and the board of education.

"Tickets for these lecture sessions might well sell for $1 or more," one interested person said. "Folk should realize that just because the admission is free, there is expense. They should also realize that the expense is being borne by the clubs, and that the public is enjoying an opportunity to attend the meetings without charge."

The speaker at Monday's meeting will be Dr. Ernest F. Barker, professor of physics at the University of Michigan, said to be one of the best informed men in the state on atomic energy. He will be introduced by Mrs. Truman Rentschler, president of the Town Hall.

Following Dr. Barker's talk, the meeting will be thrown open for public discussion and questions that may have been troubling some of his listeners may be asked and answered.

There will be four Town Hall meetings in Tecumseh this winter, next Monday's being the first one. The second will be held probably the third or last week in February and the final meeting will be in April.

"Town Halls are very popular in many cities of the state," Neville Hart, high school faculty member who is taking an active interest, said. "We believe that there will be considerable interest in such a series here, and we trust that the clubs' efforts will be rewarded on Monday by a large attendance at the opening meeting."

Clinton Local Swept By Fire

BUILDING AND CONTENTS BADLY DAMAGED IN BLAZE LATE SATURDAY EVENING

The Clinton Local, weekly newspaper in that neighboring village, was swept by fire that started about 10:50, Saturday evening, in the basement of the building. The loss, covered by insurance, will be between $7,000 and $10,000, H. H. Farley, publisher, estimated on Monday.

The blaze started in the floor, and Mr. Farley believes it was due to an overheated furnace. He is of the opinion that something went wrong with the thermostat, permitting the stoker to go out of control. The building is covered with asbestos shingles and the fire was confined to the walls. It spread quickly to the second floor, however, and there the damage was heavy. The second floor of the building is an apartment, and Mr. Farley was having it redecorated and new floor coverings laid, preparatory to moving his family there this month from Manchester.

Damage to equipment on the first floor was principally due to smoke and water. Practically all of the equipment will have to be reconditioned, and there was some loss of paper stock.

Firemen from Clinton fought the blaze for nearly two hours. A call for assistance was sent to the Tecumseh department at 11:45 and firemen from here "stood by" in Clinton for about an hour, until it was certain that the fire was under control.

Mr. Farley said today that "the show would go on," and that The Local would be published at his plant in Manchester, until the office can be repaired.

Farley purchased the Local last summer. He also owns and operates the Manchester Enterprise.

Vets Can Save Life Insurance

POLICIES MAY BE REINSTATED UP TO JANUARY 31 BY PAYING SMALL PREMIUM

Were you one of the ten million veterans who poured better than nine billion in insurance down the sewer upon discharge from the service? If you are, you should give full consideration to the following facts.

The attention of all veterans is called to the fact that the government insurance which they carried while in the service and on which they have stopped payment of premiums for any reason whatsoever, can be reinstated on or before January 31, 1947, without taking a physical examination.

The insurance act was amended in September of this year to give the veterans the benefit of a number of added features which have always been a part of insurance sold by private companies. Chief among the features now available under government insurance is that the proceeds of the policies can be payable to a designated beneficiary in a lump sum upon the request of the insured. The lack of this privilege was one of the main reasons why most of the veterans failed to keep up their insurance after discharge. They didn't like the idea of monthly payments of proceeds, it is said.

Three new policies have been added and made available: namely a 20-year endowment, endowment at the age of 60, and endowment at the age of 65. This fully completes the government insurance line and make it a very attractive one for all veterans to reconsider, both men and women. To reinstate a lapsed service policy it is only necessary that an application for reinstatement be submitted together with two monthly payments at the rate paid while in the service For example, if the premium paid while in the service was $6.50 per month for $10,000 of insurance and the policy had been allowed to lapse, reinstatement can be established by paying $13 and by filing the above mentioned application for reinstatement. If a veteran allows such reinstatement to go until after January 31, 1947, reinstatement may be accomplished but it will require a physical examination by a qualified medical doctor and in cases where veterans are drawing disability pensions or who carry a service connected disability it may be difficult to obtain a satisfactory report of a physical examination in which case the insurance is not subject to reinstatement.

The American Legion through the local service officer, Ned Rosacrans or through the Second District Service Officer, Vance L. Ogden of Clinton, will be glad to assist any and all veterans in any of their insurance problems. The necessary applications for reinstatement are available and upon request will be filled out and filed. The rates upon the different forms of insurance are also available and assistance will also be rendered in the matter of converting insurance from "service insurance" to the form which the veteran may desire. The friends and relatives of veterans are also invited to call and ask any questions they may wish regarding the rights of those who have been in the service. There is no charge for any information or services rendered by the service officers.

CHILD HEALTH CENTER IS SPEAKER'S TOPIC

Dr. J. N. P. Struthers, director of the Huron Valley Children's Center, Ypsilanti, was the speaker at the regular meeting of the Rotary Club, Tuesday evening at Brees House. Dr. Struthers was the guest of Ernest Green.

The speaker explained the work that the Center is doing by way of child guidance, and pointed out that its primary function is dealing with the adolescent emotions. While the program is a new one, if one or two children are saved from hospitalization when they become adults, the cost of the program for an entire year will be paid for, he said. The cost of hospitalizing an adult in a mental hospital, he said, is roughly $31,000 for six months.

The Center obtains its revenue from the state and Lenawee, Monroe and Washtenaw counties. Its board of directors are members of the boards of supervisors from these counties and Le Roy Tilley of Tecumseh, represents Lenawee.

Dr. Struthers' talk was very interesting and instructive.

RUNK—PETERSON

Miles Runk, athletic roach at Tecumseh high school and Miss Ruth Peterson were married January 3 in Grand Rapids and are making their home in an apartment at Mrs. Warren Underwood's home on East Pottawatamie street.

Farm Co-Op Store Plans Abandoned In County

Plans of the Lenawee County Farm Bureau for a farm co-operative store in the county have been discontinued, the Michigan Farm Bureau Services, Inc., having decided not to back the project, which does not have enough interest for support among local farmers. However, a co-operative bulk station, for the distribution of petroleum, is to be established and articles of incorporation have been filed with the state commission. The site has not yet been decided upon.

Clinton School Merger Balked

JUDGE HOLDS THAT PETITIONS FOR CONSOLIDATION WERE NOW IN LEGAL FORM

In the case of Macon School District No. 1 electors vs. Mrs. E. T. Armstrong, county school commissioner, Circuit Judge G. Arthur Rathbun on Friday ruled that the Clinton area school plan cannot be submitted to a vote because petitions for the merger were insufficien and the school district did not comply with the statute.

School electors of the seven districts in the Clinton area had submitted petitions for an election to establish a consolidated school. The petitions, which were to bear signatures of 50 per cent of the electors in each district, were sent to Mrs. Armstrong on July 10. The petition from Macon District No. 1 was not signed by the necessary 50 per cent and Mrs. Armstrong returned all seven petitions. The Macon petition was circulated further and returned August 2 to the commissioner's office with the necessary signatures.

Mrs. Armstrong referred the petitions to Dr. Eugene B. Elliott, state superinendent of public instruction and on August 10 several residents of Macon District No. 1 began a suit to test the validity of the proceedings, contending that Mrs. Armstrong's powers ended after determining the signatures were not sufficient. They also contended that after requested withdrawal of eight names and those added on re-circulation the petition still lacked the necessary percentage.

Judge Rathbun stated that in the matter of taxation, any legal elector not a party to the action, could attack any attempt to collect school taxes if the procedural organization was not according to statute.

The plantiffs Richard Pennington, May Howell and Clare Camburn were represented by John C. Howell and L. B. Kuney represented Mrs. Armstrong.

Besides her husband she leaves two daughters, Mrs. William Budwit of Adrian, Joan in nurses' training at Ford hospital n Detroit, one granddaughter Lida Marie Budwit of Adrian; her father Walter Tappan and a brother Herman Tappan, both of Delta, Ohio.

X-ray Reveals Crash Injuries

LOUISE BOWEN FOUND TO HAVE CRUSHED VERTEBRA, RESULT OF MOTOR MISHAP

New serious injuries as the result of a motor accident on the Holloway road south of here, early New Year's morning, were discovered on Saturday when X-ray examinations at Tecumseh hospital disclosed that Miss Louise Bowen, daughter of Postmaster and Mrs. Percy Bowen, one of six young folk involved in the mishap, had suffered a crushed vertebra near the middle of her back. Miss Bowen was placed in a cast on Monday. She is able to move about and to attend to her school duties. She is a member of the senior class at Tecumseh high school.

Miss Marda Gene Duncan, daughter of Mr. and Mrs. Harry Duncan, Tecumseh, remains in a serious condition at University Hospital, Ann Arbor, the result of a broken neck, suffered in the same accident. Miss Duncan is a freshman at the Ypsilanti State Normal College.

Reports from the hospital yesterday said that Miss Duncan is resting "as comfortably as could be expected," and that apparently her condition is slightly improved. She suffered three broken vertebrae, and is paralyzed below her shoulders. Mr. and Mrs. Duncan accompanied their daughter to Ann Arbor on New Year's Day and have since remained at her bedside. The injured girl has been able to receive many visitors.

The accident in which the six young people were hurt occurred about 2:45 in the morning, as they were returning from Toledo. It is believed that Richard Winder, 19, Detroit, formerly of Clinton, who was driving the car, dozed momentarily and lost control. The new model sedan crashed into a telephone pole and then hit a tree.

X-ray examinations of Mr. Winder, taken in Detroit last week, showed that he had suffered a fractured jaw bone and a broken nose, and lost several teeth.

The X-ray of Miss Louise Bowen was taken after she had complained of backache on Saturday. It was first believed that she might have suffered a rib injury.

Miss Bowen's sister, Dorothy Bowen, a student at Michigan State College, Lansing, also in the accident, returned to her studies last week, but was hospitalized for a few days, because of shock. She suffered injuries to her head, and was bruised about the body. Her injuries are not believed serious, Mr. Bowen said.

Robert Hamilton and Dermont Poley, both of Tecumseh, were the others in the Winder car. Mr. Hamilton suffered an injury to one of his feet, and is forced to walk with the aid of crutches. Mr. Poley suffered only bruises and shock.

The accident happened about four miles south of here on the ice-coated Holloway road, just south of the John Calhoun farm.

BEE SHELTERS BURNED IN FIRE NEAR CLINTON

A large bee shelter, 20 x 40, on the Herman Snyder farm northwest of Clinton, was destroyed by fire Monday afternoon, thought to have been caused by a fire in the stove which overheated insulating board with which the metal building was lined. Most of the bees were saved.

The Clinton fire department used 5400 gallons of water to get the blaze under control and prevent it from spreading to nearby buildings. The loss was estimated at near $1500.

AN EYE TO THE FUTURE

Read the financial pages of your newspapers and trade journals and you will find that manufacturers and distributors the nation over are making preparations to attract consumers. Modernization and expansion plans which had to be postponed because of material shortages, are being revived. Sales forces are being expanded. New products are being readied for market. Manufacturers of food products and other household items are getting ready to fight for the housewife's business.

This spirit, which augurs well for the conumer's welfare, is general in all retail fields, from foods to clothing and furnishings. During the long war years, retailers had to take what was offered in the way of stock and strugge along with ill-trained help. They had to cut down on services. Now, with the restrictions off, and with the available supply of goods of all kinds steadily growing, they are returning to pre-war standards as rapidly as possible.

The trend will be seen in every part of the country, in the villages as well as in the cities. Consumers will get better service, a more varied assortment of goods, and the lowest prices consistent with the times.

This competative urge is traditional to the American merchant. His whole philosophy has been to sell goods cheaper, offer more service, and in general do a better job for the consumer. He knows that the only good customer is a pleased customer. And he was as unhappy as anyone else at what the war did to his establishment.

How Much Money Do You Spend In a Year?

Folks sometimes . . . usually about tax time in January, February or March . . . start to think about expenses, wondering how much money they spent during the previous year, and for what. Few folk can give you the correct answers.

There's one way that we know how you may be certain to get the correct answers, and that is by budgeting your income with a checking account.

Your cancelled checks and check stubs will tell you when, to whom and why you spent your money. At the end of the year you'll know the answers, too.

Why don't you open a checking account this week and keep your self posted on "how you spend your income."

Adult Courses Prove Popular

NIGHT SCHOOL HERE TO BE EXPANDED WITH FARM COURSES OFFERED SOON

About 20 persons are enrolled in the night school class in shop mathematics, and some 50 others are taking advantage of the night school recreational program, both a part of the public school's adult education program, W. L. Berkhof, superintendent, said today. These classes meet on Monday evenings, and the former is taught by Jas. Mac Dowell, high school principal, and the latter is in charge of Myles Runk.

"We hope that more persons will become interested in both of these courses," Mr. Berkhof said. "There is room in both for added enrollment, and it would be fine if more people would avail themselves of the opportunities." Several of those enrolled in the mathematics class are employed at the Tecumseh Products Company.

A night school for farmers will be inaugurated soon, Mr. Berkhof said, with D. G. Locke, high school agricultural instructor in charge. Farm management, crops and other allied subjects will be discussed in this course, and it will continue for about eight weeks. Last year, a similar farm school was held here with considerable success and Mr. Berkhof believes that the demand for the courses will be equally as great this year.

The next meeting will be held February 14 when the chapter will celebrate its twentieth birthday anniversary. A dinner will be held at Brees House at 6:30 and the State Regent, Mrs. Chester Miller, will be the speaker.

Some of the best brains in the world are, today, struggling tremendously to bring unity and peace to our world, under the conviction that, unless this is achieved, the human race will have run its course. But brains, alone, are not enough. It is the spirit—attitudes—that matters most. The only permanent bases for peace and unity are the principles laid down by the Man of Galilee. The purpose of the church is to teach these principles and get them expressed in the actions of all people. To each of us comes the call to be a partner in this task. "Forsake not the assembling of yourselves together as the manner of some is." May we all develop the habit suggested by this New Testament statement and be with some group, every Sunday, meeting to worship and work with the Father of us all. It is only by working with Him that we can learn to work with and live peaceably with one another.

Your Milkman is out to Help the Fight Against POLIO!

You can join in this fight by putting your contribution in the coin holder which he is leaving for you . . .

Let's Show the World That Tecumseh Is a Leader In Helping Those Less Fortunate!

Tecumseh's Quota $500.00

All the milk drivers of Tecumseh have joined in the campaign to help the Sister Elizabeth Kenny Foundation fight polio.

A paper collar with coin folder will be placed on milk bottles for delivery on routes Friday and Saturday, January 17 and 18. Customers will be asked to put their contribution in the folder and leave it with the empty bottles for their milkman to pick up on his next delivery.

When you sit down with your family and reflect on the joys of the holidays just past, take a moment to think of all the things during the past year that we have to be thankful for. Sure, maybe there HAVE been some things that could have been better for you; but the good will more than blot out the bad. Then, let's give thanks that we live in a grateful nation . . . one that always helps those in distress.

Right now, there are thousands of children and grownups afflicted with this terrible disease, infantile paralysis. These victims are suffering the pain of affected muscles and are fighting to get well so that they may live normal lives without twisted bodies, braces or wheelchairs.

Sister Kenny and her new concept of treatment have brought new hope to those afflicted with polio. Her record is outstanding in recoveries: over 85 per cent of all patients given her treatment at the Kenny Institute in Minneapolis have fully recovered, compared with the 15 per cent under the former orthodox treatment.

Many fully-trained Kenny technicians are needed so that a hospital can be established right here in Michigan where the dread disease has been on the increase for the past few years . . . and that's where everyone of us can help.

Surely every family would gladly give $1 toward helping someone with polio to walk again.

"I'll be fired for that fool story!"

The managing editor of the *New York Herald* took a day off on December 21, 1879. So this headline in his paper hit him without warning.

EDISON'S LIGHT—
IT MAKES A LIGHT, WITHOUT GAS OR FLAME!

The public promptly shouted "hoax!" Scientists called Edison crazy. And our shocked, angry editor expected to be fired.

But he wasn't. Eleven days later, Thomas Edison held a unique New Year's party in his laboratory at Menlo Park, New Jersey, and invited the world to see his "flameless light." Thousands came and were convinced.

Soon small companies were bringing the benefits of Edison's newfangled lamp to the people. Engineers and business men poured in their energy and time . . . risked their own savings . . . overcame all kinds of obstacles . . . broadened and improved the service.

Government didn't do the job. Individuals did. And in the process, they created jobs for many thousands of Americans, as well as a great new service for many millions more.

When Edison opened the first power-plant in 1882, electricity cost 25c a kilowatt-hour. This year, the 100th anniversary of the inventor's birth, the average price of household electricity across the country is only 3 1/3c per kilowatt-hour.

Thanks to Edison's imagination and enterprise—thanks to the courage and initiative of *many* men and women, working under the American business system—this country enjoys the most and best electric service in the world. And all our lives are richer, safer, more productive.

THE TECUMSEH HERALD

NINETY-SEVENTH YEAR—NUMBER NINE | TECUMSEH, MICHIGAN, THURSDAY, JANUARY 23, 1947 | FIVE CENTS PER COPY

Book Rental Is O.K.'d By School

IT IS CONTINGENT, HOWEVER, UPON GIVING DISTRICT THE PRESENT BOOKS

The board of education, in session last week, approved the Parent-Teacher Association's proposal that books be rented to students by the district, instead of compelling each pupil to purchase his own. The approval, however, was contingent upon the willingness of 90 per cent of the parents of students now in school to give to the district the books now used by their children, at the end of the present school year. Rental of books for the coming year, it was estimated, would amount to about $1.75 or $2 per pupil, and if this were done, no parent would be forced to make a further expenditure for books during the year 1947-48 or in future years.

In brief, the plan amounts to this: If parents cooperate with the district by giving to the district the student's books they are now usnig, the board will, beginning with the new year in September, assume the responsibility for books in the future. Financially, it will mean to the parents this: if they turn in the books their children are now using they will be able to get books for those children as they advance to higher grades at the rate of about $1.75 or $2 per year for each child, as compared to possibly $4 to $8 or more, under the existing system.

The board felt that it did not have the funds available to make an outright purchase of books to supply all children at the beginning of a new school year. It also felt that inasmuch as the P.T.A. had requested the program, parents should be willing to cooperate with the board by turning in books at the end of the present year. It is felt that parents will be able to quickly see the benefits of such a program, and the savings effected, and that there will be no quibbling about the advisability of making the contribution to the district.

W. L. Berkhof, superintendent, said that books would be rented to parents at as low a rate as possible, to cover costs. He said that a definite figure had not yet been established, but he believed that $2 would be the top.

The board decided that it might be best to mark time for a few months, perhaps a year or two, before making definite plans for constructing a new school here, or even additions to present buildings. This action was taken after Mr. Berkhof had advised the board that funds might be available from the state within one or two years for building purposes. He indicated, however, that the state funds probably would have to be matched by local funds, and for this reason he advised against expenditures for buildings until the state's program had been worked out. The state aid, he said, would come from sales tax diversion money.

If the board follows this rule, funds accumulated in the present sinking fund in four years would amount to about $60,000. About $30,000 is now available.

Mr. Berkhof said that to make this delayed program work it might be necessary to further crowd buildings, perhaps to use churches and other places for class rooms but, he believed, it also might be wise to do this if the state, in 1949, would be willing to make available $100,000 or more for a new building.

The board voted to turn over to employees as a bonus, all additional money received by the district this school year from the sales tax diversion. Whether any funds will be available to the district is at this time problematical. The sales tax diversion proposal is now before the courts for a decision. It was said, however, if one payment to the district became available it might mean as much as $5,000 to be divided among the employees.

CANDIDATES INITIATED BY F. O. E. AUXILIARY

The F. O. E. Auxiliary met last Wednesday evening and initiated the following candidates: Mrs. Hazel Hertler, Mrs. Arda Pilbeam, Mrs. Katherine Dew, Mrs. Carrie Bolster, Mrs. Lillian Fielder, Mrs. Minnie Eiseingminger and Mrs. Minnie Sarvey. Plans were also completed for the Family Night supper held Saturday evening. Refreshments were served by the committee.

The next meeting will be held February 5.

Home Use of Atomic Energy Is Still In the Dream Stage

TOWN HALL SPEAKER SAYS USE OF URANIUM IS NOT PRACTICAL FOR HOME

If you have been dreaming about operating your automobile, heating your home or running your washing machine with atomic energy—possibly as early as 1950—you can forget all about it. Someday, perhaps, such things may be done, but that day is still far, far away.

Dr. Ernest F. Barker, professor of physics at the University of Michigan, was rather dubious about the possibilities of using the atom for home chores when he addressed the first in Tecumseh's series of Town Hall meetings, Monday evening at the high school. About 150 persons heard his talk and participated in the discussion that followed.

It is true, the speaker said, that one pound of uranium is equal in energy to one million tons of coal, but here's the catch. It takes a terrifically large unit to "burn" uranium. Walls must be of concrete and eight or ten feet thick. Radioactivity from the handling of uranium also is dangerous. All in all, he believes that from what science now knows amout atomic energy it will be a considerable time before it will be in common use. It might be used to power big ships or to generate electricity on a large scale, but, as he put it, who would want such a large furnace in their basement. He also pointed out the atoms might make possible desert irrigation, or heating areas where coal is not now available.

Dr. Barker told how atoms are formed, explained the "splitting" process and declared that science has learned much for man's benefit in this work. Radioactive iodine now is used to check the spread of cancer of the thyroid, he pointed out. He also explained other uses.

The professor spoke for about 45 minutes and then members of the audience participated in the discussion that followed. Mrs. Truman Rentschler, president of the series, presided. She expressed her appreciation to other officers, and to clubs and organizations who have made financial contributions to permit the Town Hall programs. Admission to all of the programs is free.

Prof. H. M. Dorr, of the international relations department of the University, will be the speaker at the next Town Hall program, to be held at the high school, Monday evening, February 24 at 8:15 p.m.

Mrs. Rentschler also announced that in connection with the school's adult education program a course in leadership training would be offered here, if there was sufficient demand for such a class. She asked that persons interested in this course notify the office of the superintendent of schools within 10 days, so that proper arrangements for instruction can be made.

Price Shopping Seen In Stores

HOUSEWIVES AGAIN ARE LOOKING FOR "VALUES" AS THEY READ PRICE TAGS

With rationing removed from everything but sugar, housewives again are spending a part of their time in stores, reading price tags, becoming a bit "choosey" about what they buy, and do not hesitate, at times, to tell clerks that "prices are out of line" and that they'll wait to buy until they are lower.

With this attitude toward buying generally, and it is nationwide, newspaper reports say, prices are beginning to tumble in cost-of-living items as compared to the days when rationing was in effect. Butter has hit new lows, and other dairy products are said to be feeling the pressure being exerted by the shrewd shoppers. Meat prices, too, have dropped, and the customer today who is craving veal steak refuses to settle for a pound of hamburg or a pork chop. That, clerks say, is entirely different than it was in the days of rationing when points had to be counted.

In the automobile industry, buyers are beginning to shop, too, it was said. More used cars are making their appearance than since the very early days of the war and while prices are still high they are not nearly as high as they were a month or six weeks ago. New cars are coming through a little faster and a car that sold for $800 six years ago no longer is bringing $1,600 on today's market. Some dealers believe that in the automobile business a buyers' market will be reached by mid-summer.

"It's the old law of supply and demand becoming operative," one business man said today. "It is true that there are many things still on the short side, insofar as production is concerned, but the public is commencing to realize that the only way to make them more plentiful and to bring prices down is to slow down on buying at exhorbitant prices."

TO HELP YOUNGSTERS TO HELP THEMSELVES

Teen-Agers Canteen Planned By Eagles Here

A teen-age canteen for Tecumseh's youngfolk—boys and girls between the ages of 14 and 17 years—will be launched in Tecumseh soon by the Fraternal Order of Eagles in their club rooms on East Chicago boulevard, it was announced today. The project has the approval of the public schools and the Parent-Teacher Association and will be operated under the supervision of a man and his wife on Friday evenings, only. The program is in keeping with the Eagles' state-wide movement to be of assistance to young folk in communitits where the organization operates.

That the community may better understand the program that the Eagles are undertaking, a public meeting is to be held on Friday evening at the high school auditorium at 7:30. A group of young boys from the Starr Commonwealth at Albion, will furnish a part of the program, and other speakers will include Lester Johnson, Detroit, state president of the F.O.E., Circuit Judge G. Arthur Rathbun, and Floyd Starr of Albion, president of the boys' school.

It was explained today that the canteen will be open only on Friday evenings, between the hours of 8 and 11:30 o'clock. It will be supervised constantly during those hours by a man and his wife. Only boys and girls between the ages of 14 and 17 years will be eligible to enjoy the privileges. There will be music, lunches and soft drinks. Dancing will be enjoyed, if the young folk so desire.

A constitution and by-laws governing the operation of the canteen are now being drafted and will be submitted for approval. It was said that the new project would be in operation about the first of February.

Tecumseh Wins 6th Cage Honor

DEFEAT ADDISON HERE, 36 TO 20; TRAVEL TO HUDSON FRIDAY NIGHT

By Jim Sisson

The L.C.A.A. is still governed by Myles Runk's war-painted Indians as the Tecumseh five kept their league lead by downing Addison cagers last Friday night, 36-20.

The rough and tumble contest on the local high school hardwood was in the Braves' possession throughout, but the Panthers staged a stubborn battle in a futile attempt to remain in the conference race. Highlights in the evening were brought on by excessive fouling by the Addison aggregation followed by many uncalled for "boos" by the Tecumseh followers.

The Orange and Black were below par in their sixth straight win but launched an unfaltering attack that set them out ahead 8-4 in the initial period. By halftime Tecumseh had climbed onto a 17-10 margin and were on their way to victory.

Nineteen more counters were tallied in the final quarters to establish the closing score while the Addison offensive was snuffed effectively to promote the entering of the Braves' substitutes.

Ben Hammack and Bill Hayden paved the road to the home town success as each flipped ine markers in the hoop for co-honors. But top billing was captured by Addison's Bob Gray as he hooked 12 points.

The junior Warriors of Dave Dick hung up their second victory of the current schedule as they also humbled the Panthers. Doug McDowell went wild with the cage hoop as he piled up 24 counters of the Reserves 44-18 win.

Morenci also triumphed to remain just one-half game behind the Indians with four victories offset by one defeat while Addison dropped to Clinton's level (a tie for third place at two contests behind).

The Morenci Bulldogs, however, were kept worried by Tecumseh's next opponent, the Hudson Tigers. The second place quintet had the advantage of their own court but managed only a 33-29 triumph.

So there will be no easy evening in he Hudson Bengals' gymnasium tomorrow night when the Runk clan invade in quest of a seventh scalp for their war belt.

March of Dimes Drive Launched

TECUMSEH ASKED TO CONTRIBUTE TO ROTARY CLUB SPONSORED PROJECT

The March of Dimes campaign—a nation-wide movement to raise funds to fight infantile paralysis, was officially launched in Tecumseh today with the Rotary Club sponsoring the campaign. The project is about a week late in Lenawee county this year, due to the failure of materials to arrive from the national headquarters.

Wade L. Jones, president of Rotary, has named this committee to take charge of the campaign: Ray Shuyter is chairman, and he will be assisted by Howard Truesdale, Dr. Ferris G. Hodge and W. L. Berkhof. The drive will end on January 31.

"We do not expect to make any house-to-house or store-to-store solicitation," the Rotary president said. "Perhaps some organizations will contribute, but for the most part we will depend upon the money that will be dropped in the special boxes, which will be found in the business places, in the shops, the schools and in the downtown district."

Mrs. Sylvia Cooke of Clayton, county chairman of the March of Dimes, said that a special appeal had been received from Mrs. Frank Drury of Louisville, Ky., mother of the four-year-old poster girl who symbolizes the fight this year against paralysis.

"All of us have a tremendous stake in the fight against polio," Mrs. Cooke said. "No child or adult will be safe until the preventive for this hideous disease is discovered. Nancy's mother (the mother of the girl on the poster) speaks to us all and for us all. She asks that we do our part, not only by contributing ourselves, but by telling everyone how her child, like thousands of others, escaped crippling through the help provided by the March of Dimes."

Nancy was stricken in 1944. Now she is a completely healty and normal child. All of Nancy's medical and hospital bills were paid by the March of Dimes.

$250 Collected In Kenny Drive

HOFFMAN SAYS THANKS TO WORKERS AND COMMUNITY FOR FINE RESPONSE

Tecumseh contributed liberally to the Sister Kenny Fund to aid in the fight against infantile paralysis, and for the fine response Bruce W. Hoffman, chairman of the campaign locally, today expressed his thanks to those who assisted him and to the community generally.

'It now appears that Tecumseh will give between $250 and $300 to the Kenny Foundation to further the fight against infantile," Mr. Hoffman, Meyers Aircraft executive, said. "I think that this is an excellent showing, and I would like to say thank you to those who assisted in the campaign, and to the contributors. I am proud to be a part of a community with such a generous heart."

The Kenny campaign was launched last Friday and Saturday when special collars, bearing the Kenny message, were distributed by milk dealers to all of their customers. The collars were so arranged that they might be returned on Sunday and Monday, carrying the contribution.

"We received very little silver in the collection," Hoffman said. For the most part, it was paper money and checks. The milk men worked hard to make this campaign a success and I want to thank Merrill Murphy of the Tecumseh Dairy, and Arthur "Red" Doerffler, of the Driggs Dairy, for their fine spirit of cooperation."

Collections from the milk collars thus far has netted about $207, Hoffman said, and there are other collars coming in. Special collection cans in downtown stores are expected to show another $50 return, it was hoped. Also, it is expected that there will be other contributions.

The Kenny campaign ends officially today, and the money will be forwarded to the foundation.

Green's side had won in the membership contest and the losing side will furnish entertainment at the next meeting to be held February 3 in the church.

LET'S DISCUSS TECUMSEH

Tecumseh residents were introduced to the first in a series of Town Hall programs last Monday evening at the high school. A very capable professor from the University of Michigan discussed atomic energy and pointed out its uses in a peace-seeking world. All in all, the program was very much worthwhile and commendable. Those who inaugurated Town Hall are to be congratulated.

A Town Hall has been needed in Tecumseh for a long, long time. And now that such a program is under way, we'd like to see it "boiled down" to a local level. We'd like to see Town Hall attendants here interested in "local energy" as well as 'atomic energy." It's quite all right to be thinking about atoms, because in the not-to-distant future, perhaps, we'll be dealing with them more realistically. But right now, we feel that communities such as ours should also give careful thought to local affairs; to ways and means of bringing about more interest in the community, in its growth, and in its future well-being.

There are many questions pertinent to Tecumseh's post-war future that would make excellent Town Hall topics. We'd like to see the whole community participate in a discussion of these topics, not with the idea of putting somebody "on the pan," but with the idea of constructive group thinking.

It is very easy to criticize. Almost anyone who does anything is asking for it. Leadership, no matter how capable, is certain to come in for its share of "sharp shooting." Often, folk criticize because they do not fully understand the issues involved. Wise leadership realizes that after a community has been alerted to an issue it also must be fully informed of the facts involved. If the proper educational program is neglected then the public is not at fault if its judgement is biased.

We believe that Town Hall is in a position to present these local problems to the community, and we also believe that this community would welcome an opportunity to "talk over" it's "household affairs."

The Tecumseh Rotary Club a couple of years ago held a series of round table discussions on Tecumseh's future after the war. There were 13 of these meetings and the average attendance was 125. There was genuine interest in the program. It attracted statewide attendance.

We'd suggest that Town Hall begin where the Rotary Club's program ended. When the Rotary program was in progress the war was still going on. Its program was in the "future tense." Today, the war is ended and programs could be presented in the "present tense."

Possible topics for discussion, and we do not attempt to suggest them in the order of their importance, might be:

Are our telephone and electrical systems, our water and sewer systems and our fire fighting equipment keeping pace with the growth of the town?

Why is it that so few people are interested in local elections, municipal, county and school? Why do so many people feel that they cannot "afford"-to accept public office in a small town?

Several years ago the government bought a site for a new post-office. What has happened to this project? Is anyone looking after Tecumseh's interest in this matter?

Is there something wrong with Tecumseh's zoning ordinances? Are the restrictions too severe? Is the growth of Tecumseh's business district being cramped by this ordinance, and are property prices in the so-called "business area" being stimulated as a result? Is business looking to areas outside the village for new building because of too rigid restrictions?

What cooperation is our rapidly expanding industry receiving from the community in an effort to ease some of the growing pains?

Would it be possible to extend greater cooperation to builders in Tecumseh in an effort to speed up construction of the 300 or 400 new homes, said to be needed here within the next two years?

Does the board of education need greater community cooperation in dealing with its problem of educating our children? If Tecumseh adds two or three thousand population, what steps must be taken by the board to house new students in suitable schools?

Are public officials now in office receiving criticism that they do not deserve because the critics do not understand the problems that face these officials?

These are only a few of the questions that might be discussed at a Town Hall meeting. They could be discussed fairly, and with an open mind. Constructive criticism is a good thing. Perhaps, at times, some toes might get stepped on. But there's no reason why Tecumseh, as a "family" should not be fully informed about "family affairs."

We believe that untold benefits could come from such a Town Hall series. We believe that many misunderstandings could be cleared up. There is no reason why, with all of the facts, Tecumseh should not move as a unit.

If such a series of meetings should occur let us remember: Any old motor can knock. But for smooth performance, power and dependability a smooth running motor is needed. This rule also applies to a community.

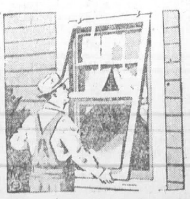
Don't Be In the Doghouse
When the Weather Is Bad

Is your home cozy and warm when it rains, sleets and snows—or the wind blows? If it isn't, it's time that you did something about it. It's time you thought about reducing your fuel bills, too.



There are two things that you can do to make your home much more liveable, much more enjoyable these chill winter days.

First, we'd suggest storm sash. We can furnish you with combination storm-screen sash for as low as $5 an opening. You'd be surprised how much cold storm sash will keep out, how much fuel they will save in a single winter.

And, in addition to your storm sash, we'd also suggest attic insulation. We have top-quality insulating materials.

All FORD Car
Prices Reduced
As Much As $50 On Some Models

Ford Dealers hail the recent announcement of the Ford Motor Company, "*We are reducing prices of all Ford cars—as much as $50 on some models,*" as the most important postwar step taken by the automobile industry.

In making this precedent-shattering move—another "Ford First"—the Company, with which we are proudly associated, is making a "down payment" toward a continued high level of production and employment in the months ahead.

We are proud too, that the Ford Motor Company was the only automobile manufacturer which did not increase prices of cars after decontrol last Fall.

Like the Ford Motor Company we have decided that now is the time for us to make an investment in the future.

As Ford Dealers we pledge ourselves to cooperate with Ford and with our customers to do everything within our power to hasten the return of the economic pattern which has helped to make America great.

Since war's end we have delivered many new Fords to waiting customers. We hope it will not be too long until all who have Fords on order will have their new cars.

Is Your Medicine Chest Stocked With "Emergencies"?

A cut, a burn, an accident or any kind calls for prompt treatment, night or day. An aching stomach or one that is upset, or a headache, demand relief, too.

Do you have the things in your medicine cabinet to meet such emergencies? If you don't, we suggest that you visit our store and obtain the medicines regularly termed "necessities" in every home.

Keep them instantly ready and use them promptly when need arises. But remember, if the patient does not respond readily to home remedies, call your physician. And when he prescribes, bring the prescription to us for careful compounding.

Tecumseh F. F. A.

Reporter, Bill Brown

The Tecumseh F.F.A. is taking on the Farm Bureau seed sales and plans to increase the amount of sales this year.

At the last meeting the chapter elected two candidates to the F.F.A. convention in Lansing in May, and also decided to send two representatives to the Kansas City convention in the fall.

The group is now competing in pest hunt with points given for each pest brought in. The chapter is divided into two teams, "The Underdogs" consisting of the farm crops class, and "The Terrible Twelve," made up of Juniors and Seniors. At present The Underdogs are ahead. At the close of the contest the losing team will treat the winners.

The chapter has consulted three agricultural colleges in settling the problem of how much feed it requires to feed a hog from 200 to 400 lbs., and according to these colleges it requires about 850 lbs. of feed.

From where I sit ... by Joe Marsh

Willie Goes to School at 23

Everybody's joshing Willie Wells about going back to school. They remember when Willie would hide out in the woodshed scared to bring his report card home to Pa.

But under the G.I. Bill of Rights, Willie (who has a wife and baby) is getting a free education at the Agricultural College. And Uncle Sam is giving him a fine report: "Deportment, excellent; Progress, above average."

That goes for all those undergraduate veterans. Like Willie, they appreciate an education more than ever now. They're industrious and well-behaved—their favorite beverage is milk, or a temperate glass of beer. For them the "three R's" seem to mean: Responsibility, Resourcefulness, Restraint.

From where I sit, cynical folks who thought veterans wouldn't want to return to school—wouldn't stick to steady habits of work and moderation—have their answer in "undergraduates" like Willie.

Order of Hearing—Claims

STATE OF MICHIGAN, County of Lenawee, ss. Probate Court for said County.

At a session of the said court, held at the probate office, in the city of Adrian, on the 15th day of January, A. D. 1947.

Presen, HON. MAURICE E. TRIPP, Judge of Probate.

In the matter of the estate of CHARLES J. HARPER, Deceased.

IT IS ORDERED, that the 17th day of April, A. MINUTES OF THE BOARD OF EDUCATION

January 14, 1947

The meeting was called to order by the president, Mr. Touborg. Members present were Mr. Touborg, Mr. Spafford, Mr. Lindsley and Dr. Helzerman. Members absent, Mr. Satterthwaite.

The minutes of the last meeting were read and approved.

Upon motion made by Mr. Lindsley and seconded by Mr. Spafford, the bills as incorporated into the minutes, amounting to $2,121.78, were approved and ordered paid.

Following a discussion concerning the petition from the P.T.A. that the Board adopt the text book rental plan, it was moved by Dr. Helzerman and seconded by Mr. Spafford that the plan be adopted for all grades in the school, and that rental fees be based upon a survey by the superintendent of all costs which must be met under the system. Also, that the adoption of the plan by the Board is conditional upon the willingness of at least 90% of the parents to donate present text books to the Board of Education. The motion was carried.

The entire question of advisable steps which should be taken to meet the need for an expansion of school facilities was given careful consideration. The superintendent reported that the passage of the Sales Tax Amendment in November would, in all likelihood, lead to the establishment of a state fund for the construction of school buildings which would be made available to local districts on a matching basis. In view of this fact, it was generally agreed that it would be advisable to provide classrooms at the lowest cost possible during the next few years to conserve the building and site funds for a major construction project possibly in 1949.

It was moved by Mr. Spafford and seconded by Dr. Helzerman that all additional state aid which is received by the district during the current fiscal year, as a result of the Sales Tax Amendment, be prorated to all employees of the district. The motion was carried.

A motion was made by Dr. Helzerman and seconded by Mr. Spafford that the Board approve the payment of a sum based on three cents per pupil in membership to the Michigan Equalization School Association. The motion was carried.

Upon motion made by Dr. Helzerman and seconded by Mr. Spafford, the meeting was adjourned.

P. C. Satterthwaite,
Secretary.

HOFFMAN VERY PLEASED WITH PUBLIC RESPONSE; MARCH OF DIMES CAMPAIGN ON

Contributions in Tecumseh to the Sister Kenny Fund to aid in its fight against infantile paralysis totaled $357.35, Bruce W. Hoffman, Meyers Aircraft executive and chairman of the drive locally, said today. The campaign was conducted last week with the aid of milk bottle collars which customers returned to their milkmen carrying their contribution.

"We had a quota of $500 and off the record we hoped to reach $300 in this community," Mr. Hoffman said. "Not only did we reach the $300, we exceeded it, and I am very happy with the public's response." Mr. Hoffman last week expressed his appreciation to the dairy firms and their drivers and others who assisted in the campaign for their excellent cooperation.

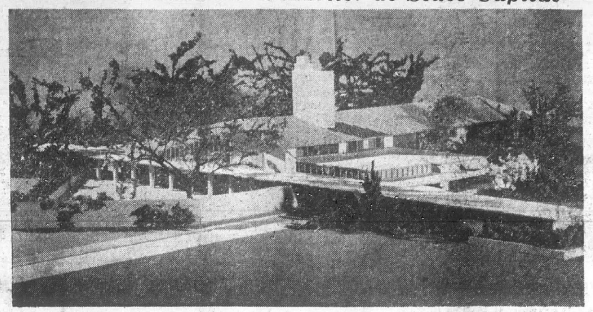
"The money subscribed here," Hoffman said, "has been forwarded to the foundation and I know that Tecumseh can feel proud of the job it has done."

The March of Dimes campaign to help that organization carry on its battle against polio is now under way in this village. This campaign is being sponsored by the Rotary Club with Ray Sluyter as general chairman.

"We do not expect to make a house-to-house solicitation this year in the March of Dimes drive," Wade L. Jones, president of Rotary, said. "We have placed the contribution boxes in the stores, the schools and the factories and we will rely upon these boxes in this campaign."

Last year, Tecumseh made an excellent contribution to the March of Dimes but this year the Sister Kenny drive preceded the Dimes campaign.

Model of Home for Governor at State Capital



Modern as Michigan is the above scale model of the proposed permanent residence at Lansing for the Governor of Michigan, as approved by the State Board of Auditors. The model, which is complete even to miniature furniture and pictures on the wall, was displayed for the first time last Friday to Michigan newspaper editors at the 79th Anniversary Convention of the Michigan Press Association, Inc. Alden B. Dow of Midland, the architect, is world famous for his modern functional style of buildings. The home will combine residential and business needs of Michigan's governor and his family with provisions for state receptions, lodging of visiting dignitaries, offices for the governor and a secretary, an apartment for the governor's bodyguard and family, rooms for servants and other accomodations. According to Governor Kim Sigler, no immediate construction is planned in view of the state's financial problem and the lack of veterans' housing.

Indians Ready To Meet Morenci

CAGE GAME HERE TOMORROW MAY DECIDE LCAA TITLE; HUDSON HUMBLED, 25-16

By Jim Sisson

Coach Myles E. Runk's tribe of high school cagers hung up number seven in their victory column as the Hudson Tigers bowed out last Friday, 25-16.

The Tecumseh lads found little trouble on the Bengal court in the opening half as Bill Hayden and LaMar Cheever began chalking up the point totals. The first period was terminated with the Indians on the top side of the 7-1 score.

The Warriors' attack did not falter throughout the second quarter when the margin widened and the halftime scoreboard read, Tecumseh 15, Hudson 3.

A great feeling of security rested with Braves as they sprinted back after the intermission to carry out the kill. But the "Cats" had nine lives and came out to prove it.

Inspired at the half the Tigers bit hard into the dwindling Tecumseh lead during the third stanza. The Redskins were helpless as shot after shot missed its mark and Hudson closed in to trail by the thin margin of 20-13.

The Tiger spirit subsided somewhat but the Warriors failed to warm up in their hoop firing and managed to admit only five more points to their total while smothering the opposing offensive to an addition of three markers.

A barrage of attempts were set up by the entire Indian squad but no one could consistantly find the basket range to establish a very effective attack.

Bill Hayden slipped in three field goals and a pair of charity throws to claim the evening's scoring honors with eight points. On his heels, however, tagged his teammate LaMar Cheever who also accumulated three goals but only connected with one gift toss for a total of seven counters.

Doug McDowell dropped in 11 points to head the Reserve's futile efforts as they ended up on the short end of the 29-20 score in the preliminary contest.

Tomorrow night may well decide the outcome of the L.C.A.A. race as the Morenci Bulldogs invade the Tecumseh hardwood for a return engagement on the schedule. On December 14 the Orange and Black were victorious at Morenci as they hung up the 37-23 win. But the Bulldogs have sharpened their teeth since then and are an up and coming club being only one game behind the Warriors.

If the Runk aggregation hit their eighth straight they will have to win only two of the next four league contests to claim at least a tie in the conference. But if the Bulldogs should come through in grand style they would annex a part of the L.C.A.A. lead and it would be anybody's trophy. Each will enter the floor with determination but only one will leave victorious.

Perry Hayden Writes About Old Mexico

FINDS PLENTY OF AMERICAN MADE CARS, TRUCKS, BROADCLOTH SHIRTS AND HATS

Gasoline at $1.24 per gallon, plenty of American made automobiles, tires and trucks, white shirts by the dozens and tangerines for less than a penny each—those are only a few of the things that are amazing Perry Hayden, local miller and president of the Dynamic Kernels Foundation, as he carries his message of "Biblical Wheat" into old Mexico. Mr. and Mrs. Hayden and their daughter, Mary Jane, and Raymond Jeffries of Columbus, left here about two weeks ago on a journey that will take them into the western part of the United States and the republic to the south.

Mr. Hayden, who keeps a diary of all of his activities, a section of which already has been returned to Tecumseh, tells many interesting highlights of the trip, including the inspection at the Mexican border which, he declares, was very thorough.

In Monterrey, he says, gas costs $1.24 per gallon in Mexican money but, in American money, the price is about 25c. There are plenty of American made cars, tires, trucks, etc. Oranges—juicy, ripe ones—cost 2c each, and tangerines sell at 32 for 21c.

In Victoria, he writes, white broadcloth shirts, made in the states, sell at $5 each and there are windows full of Mexican made hats at $2 each.

The party expected to arrive in Tamazunchale on January 22, continuing on to Mexico City the following day.

The convention adopted resolutions endorsing Senators Vandenberg and Ferguson and Rep. Michener. State Senator Porter and State Representative Conlin.

John R. Zeigler was named as Tecumseh's delegate to the state GOP convention in Grand Rapids, February 8. S. E. Doty was named from Raisin, Larry Oeschsle from Cambridge, Lena Pocklington from Ridgeway, Herbert Munger, Franklin, William Schneirla, Clinton and William Gibson, Macon.

Trailer Theft Suspect Held

POLICE CHARGE THAT SEMI, PARKED ON FARM NEAR HERE, WAS STOLEN IN TOLEDO

Ohio officers will go to VanWert, Ohio, today to return to Toledo Charles Henry Weidiman alias Walter Wilcox, 28, formerly of Tecumseh, who is wanted on a grand larceny charge, according to Detective Harry Davis of the Toledo police.

Weidiman, according to William Hanna, deputy sheriff here, lived in Tecumseh for several weeks during November and December, stopping at the Chief Hotel with his wife, Fern, aged 22. They left Tecumseh about December 29 and have not returned. Mrs. Weidiman gave birth to a baby boy, Charles William, in Tecumseh Hospital, December 7, and the infant still is being cared for at the hospital here. Hospital attendants said that the mother had contacted the hospital about the child's care, and that the baby's stay was "regular."

According to Deputy Hanna, Toledo police suspect that Weidiman stole a large trailer, valued at $3,200, from the Titsworth Sales & Service Co., Toledo. He had a tractor in his possession when he took the "semi" from the Titsworth lot. Police say that he brought the trailer to the Beland farm, just west of Tecumseh, and that he sold the "dolly" from the trailer to a Tecumseh man, after a welder had cut it loose with an acetylene torch. He also sold the trailer, officers say, for $400 to another local man. The wheels and tires are missing. Weidiman told Mr. Beland, police say, that he intended to live in the trailer.

Where Weidiman obtained the tractor which he used to pull the semi or what became of the tractor police do not know. They say that when he left here with his wife they were driving an automobile.

Weidiman, Hanna said, has been detained in Van Wert for several days while officers investigated a check fraud charge. The whereabouts of Mrs. Weidiman are unknown to police.

George Harvey Lewis, Jr., Marries Elizabeth Bowen

Mr. and Mrs. James William Bowen of Adrian are announcing the marriage of their daughter, Elizabeth Jane, to George Harvey Lewis, jr., of Ann Arbor. Mr. Lewis is the son of Mr. and Mrs. G. H. Lewis, of Britton.

The double ring ceremony, which took place Saturday, January fourth, at LaGrange, Ind., was solemnized by the Rev. Raymond F. Hart, of the First Methodist Church. Miss Rosemary Schwab of Manchester was the bride's only attendant, and Louis L. Schneider of Tecumseh, a fraternity brother of the groom, served as best man.

For her wedding, the bride selected a street length gown of grey crepe, fashioned with cap sleeves and draped skirt, and her corsage of yellow and fuschia bebe chrysanthemums was in harmony with the scatter print of her dress. A Juliet cap of black sequins modeled with a short full back veil completed her ensemble, with which she wore black accessories. Miss Schwab was attractive in a black and white checked dress-maker suit, also with black accessories, and her flowers were white bebe chrysanthemums.

The bride is a graduate of Adrian high school in 1942, and attended Adrian College for two years where she was a member of the Delta Delta Delta Sorority. She later attended Western Michigan College of Education at Kalamazoo for two years, and at present is a member of the staff of the Lenawee County Health Department in Adrian.

Mr. Lewis graduated from the Ford-Macon High School and in 1944 received his Bachelor of Science Degree from Adrian College, where he was affiliated with the Alpha Tau Omega Fraternity. He served twenty-five months with the United States Navy, first with the 116 Fleet Hospital on Okinawa, and later with the Marines in China. He received his discharge in August, 1946, and is now attending medical school at the University of Michigan.

For the present Mrs. Lewis is making her home with her parents on Comstock street, Adrian, until housing can be obtained in Ann Arbor.

Sunday, February 2, the groom's parents will entertain at open house honoring the newlyweds. Friends are invited to call at the Lewis home on Pocklington Road, Britton, from three until five o'clock in the afternoon.

SOAP VS COATS

We read the other day where an authority on large-scale merchandising recently made this observation: "At the end of the first world war consumers seemed to have the money to purchase all of the luxuries and then they complained they could not afford the necessities. That seems to be the situation today." He cites the case of a woman who recenly bought a very expensive fur soat, and then complained bitterly at the increase in the price of soap which could not add more than five dollars a year to her living expenses.

There are signs that this "silk shirt" attitude is diminishing. A good many of the "anything-at-any-price" buyers are running out of cash, and others are beginning to realize that spendthrift policies are not good for either individuals or the nation. And it is to the credit of retail merchandising that, for the most part, it is not trying to encourage reckless spending; nor is it attempting to profit unduly by charging all the traffic will bear.

Many stores long ago announced a policy of holding prices to the lowest possible level, whether or not governmental controls existed. The laws of competition are taking care of the occasional merchant who wants to exploit the unwary purchaser. Under the competitive system, prices find their own natural level established by the costs and conditions of the time.

Do You Save Regularly a Part of Your Earnings?

It is very wise, regardless of how much or how little money you earn, to save a part of it—and do it regularly.

We know of folks who only a few years ago opened a savings account—just a small amount, too—and added to it regularly. Today, that account is in four figures, a fine nest egg for the family as well as a genuine comfort and security.

Why don't you open an account this week and add a few dollars each payday? You'll be surprised how rapidly it will grow; how much satisfaction there is in saving a part of the money you earn.

From where I sit ... by Joe Marsh

Sam Hackney Reports on the U.S.A.

Sam Hackney and the missus just returned from a trailer trip around the country. They're tired, and glad to be home, but mighty impressed with what they saw.

As Sam reports—every section has something different; a different way of talking; different tastes in food and drink; different laws and customs. But bigger than all these differences is the American spirit of tolerance that lets us live together in united peace.

"Of course," says Sam, "you run into *intolerance* from time to time. Individuals who criticize another's right to speak his mind; enjoy a glass of beer; or work at any trade he chooses. But those are the exceptions—and we're even tolerant of them!"

From where I sit, more of us ought to make a trip like the Hackneys — to realize firsthand how America is bigger than its many differences ... how *tolerance* of those differences is the very thing that makes us strong.

Air Travel Twice As Safe In 1946, Rotary Club Told

Better landing fields are the need of the nation's airlines, and improved airports will come as this 20-year-old industry continues to spread its wings, Thomas A. Kerr, district sales manager of Capital Airlines, Detroit, told members of the Rotary Club here, when he addressed the group following dinner at Brees House, Tuesday evening. Mr. Kerr was accompanied by Miss Beth Jones, Capital hostess, who spoke briefly.

Commercial aviation received somewhat of a setback during the war years, Mr. Kerr pointed out, but today its growth is rapid. He pointed out that already the immense airport at the nation's capital is too small, but he predicted that ports would expand, nationwide, as the industry grows. He declared that air travel was twice as safe in 1946 as it was in 1945, despite the fact that air accidents usually attract newspaper headlines. All commercial lines, he said, are constantly on the alert to improve service and safety, he said.

Miss Jones, dressed in a smart PCA uniform, told of the duties of a hostess aboard the big four-motored ships. It includes primarily the passenger's comfort, always with an eye to safety, she said. "And it's great sport, too," the hostess said, "especially when you have as many as nine babies aboard."

Good Business Sense

Precisely the same principles that apply to any successful business activity apply to dealings in securities.

There is no short cut to wealth—no sure, easy way to make money quickly.

Tips and rumors—promising great rewards without effort—are bought—are merely traps for the unwary, the ill-informed, the heedless. In investment there is always a degree of risk, whether in stocks, bonds, or any other form of property.

Facts can be had. At times they are hard to get but that's our business—a part of our service to you.

"These are times that try the souls of Men." How frequently that statement is made. And it is true, isn't it? Whenever life becomes difficult or uncertain people seek the extra power or help that comes from within. If there is no extra source to draw upon then what shall we do? Let's be aware of our needs while there is time. Let us strengthen our souls and fill up our reserves before the need arises. We do it only by drawing upon the source of all spiritual strength—Almighty God. To worship Him in His Church is the best way to find His strength entering our hearts and minds and souls. A. & P. Expands "Ad" List By 1,000 Papers

An experimental plan of placing advertising in at least one newspaper in every city or town in which it has a store has been put into effect by A & P Food Stores, R. R. Betz, vice president in charge of the company's Toledo unit which serves this area, announced today.

The advertising, entitled 'Marketing with Marjorie," is newsy and chatty in form and will appear every other week in more than 900 papers throughout the country to tell consumers about the famous quality brands to be found in A & P stores.

"A & P has always strongly believed in the selling power of newspaper advertising," Betz declared. "The best proof is that we have been using approximately 2,000 newspapers regularly to carry our message to the public and with the total of present additions the list has been increased to 3,000."

Some of the copy of this new type advertising will describe the quality of the products and other ads will give hints on how to use these foods to make more tempting and tastier dishes. Ads are aimed at the housewife although the quality angle is expected to be of great interest to men shoppers, whose number increased greatly during the war.

Up to now, retail food advirtising has been devoted, for the most part, to listing the prices of various foods. Thus this column, which makes no attempt to include prices, is a marked departure from the usual practice of most food companies.

"Since it is new and different, 'Marekting with Marjorie' is being tried on an experimental basis," Betz said.

My, how she's grown!

This is the snow-suit that fitted Sally so well only two years ago. It was a little snug last winter, but still wearable. Now it's outgrown. Sally needs a new outfit — fast!

A lot of businesses are in the same spot as Sally. Their facilities are outgrown too. During the tight war years, they nursed old equipment along, patiently waiting for new materials and machines. And all the time they, too, kept on growing. But a lot of things they've been needing *still* aren't available.

That's why so many businesses — our own included — are like Sally, straining at the seams, waiting for the new outfits *we* need.

This is a friendly apology to those folks who've asked to be added to our crowded lines. Though we haven't gotten around to you, we haven't forgotten. We appreciate your patience, and want you to know that — as soon as materials are available — we'll be happy to bring cheap, dependable electric service to you, too.

PEOPLE ARE ASKING THESE QUESTIONS ABOUT ARMY ENLISTMENT

Q. *What educational benefits do I get under the GI Bill of Rights?*

A. If you serve honorably on active duty for a period of 90 days, one day of which is served between September 16, 1940, and the date of termination of the present war, or you are discharged because of an actual service-incurred injury or disability incurred within that first 90-day period of service, you are, upon discharge, entitled to one year of education in the college, trade or business school of your choice for which you can qualify. In addition, each month of active duty, including the first three, prior to the termination of the war, entitles you to another month of post-service education, up to 48 months.

Your tuition, laboratory fees, etc., up to $500 per ordinary school year will be paid by the government. Also, you will receive $65 a month living allowance; $90 a month if you have dependents.

Q. *What about family allowances?*

A. For men enlisting or reenlisting now, family allowances will continue until six months after the war is officially ended.

Q. *What are my chances of going overseas?*

A. If you enlist for 3 years, you may select to serve in any overseas theater which has openings, especially Japan or Korea.

Q. *Can I still choose the branch of service I want to serve in?*

A. Yes. You can pick any branch which has quotas to be filled, if you enlist for 3 years.

Q. *Is there any way I can reenlist in my old grade?*

A. Yes, you can, if you reenlist for a 3-year term within 20 days after your honorable discharge.

Q. *Is there any other way I can reenlist in grade?*

A. Yes, if you held one of certain military occupational specialties, and were discharged on or after May 12, 1945, you can reenlist in a grade depending on the length of time you held the desired M. O. S.

GOVERNOR SIGLER HAS MONEY WORRIES, TOO

State Faces Big Deficit Due to Sales Tax Diversion

By Gene Alleman
(Special To The Herald)

The prospect of a multi-million deficit in the state treasury, due to diversion of 76 per cent of the 3-cent sales tax back to home governments including the public schools, still is the A-1 top problem of the Sigler administration.

"A major part of my day, from early morning to late at night, is being devoted to this matter of finances," said Governor Sigler. "I am now working on the budget message to the legislature. We're going to meet the issue frankly. The people must realize the seriousness of the financial situation which today confronts the State of Michigan."

The governor said he was concerned over the impression, still prevalent in the minds of many citizens, that the sales tax amendment diverted one cent of the three-cent tax back to local governments. The loss of 33 per cent of the state's major source of revenue is one thing; the loss of 76 per cent is something else. Simple arithmetic will reveal that the difference is 43 per cent which on an annual collection of $100,000,000 would involve a cool $43,000,000 of additional revenue diverted from the state treasury.

A variety of solutions have been advanced by members of the legislature.

Senator Haskell L. Nichols of Jackson proposes a referendum in April on whether a state constitutional convention should be called. Nichols feels that the preset constitution has been amended to the point where a brand new charter should be adopted. The need for such revision has been recognized at Lansing for many years, but state officials have been reluctant to risk such a convention at a time when the voters' temper was subject to drastic fluctuation.

Representative Elton R. Eaton of Plymouth has introduced a resolution proposing that the sales tax issue be re-submitted to the voters at the coming April election. Eaton was named chairman of the house taxation committee, and he is fully convinced that many citizens were unaware of the consequences of the sales tax amedment when they voted in favor of it last November.

Senator G. Elwood Bonine of Vandalia has introduced a bill which would solve the problem of how to finance the $270,000,000 veterans' bonus. Bonine's measure would ear-mark three mills of the 15-mill property tax for the bonus. It would produce around $22,000,000 each year, based on present valuations. This is about enough to cover the cost of interest and bond retirement.

Senator Harold D. Tripp of Allegan would whittle down the prospective deficit by returning to the state the liquor license fee rebates which are now given to cities and villages for enforcement of liquor laws.

Other schemes to whittle down the deficit would put the state-suppored colleges in to one school district and thereby make them eligible for state school aid; would dip into the $50,000,000 veterans' trust fund to help finance the $270,000,000 veterans' bonus. All these have the weakness in that they only alleviate the problem; they do not solve it.

It is likely that the financial problem will come to a head soon and that legislative leaders, together with the governor and state officials, may arrive at some conclusion.

With the financal problem at the top of his list, Governor Sigler has been disturbed by recent developments which have focused public attention on the personal needs of the governor and his family.

We refer to the so-called "governor's mansion," a high-falluting title for what would be an official "white house" in Ferris Park for the governor, his family, and a staff of servants including the governor's bodyguard who is assigned annually by the Michigan State Police.

The "mansion" idea is not Sigler's creation. It popped up in 1946 when the state legislature decided that the State of Michigan should provide suitable housing facilities and business offices for the governor and his family and others who are needed to maintain the building.

The state board of auditors in 1946 engaged an architect and designs were submitted to the board shortly after January 1, thereby focusing public's attention on the whole matter.

The governor is a public figure of major importance; his job does not end daily at 5 p.m.; the office imposes upon him unusual responsibilities and duties.

The proposed official "white house" at Lansing would include business offices where the governor could attend the official business in evening hours; several apartments to house the governor's bodyguard, members of the staff and their families—all of whom are needed to prepare meals, tidy up the rooms, tend to the fire, and otherwise be on hand for a variety of needs including state official functions.

When we asked Governor Sigler about the "mansion," he expressed himself with considerable feeling. He didn't approve of the idea of a "mansion." He was living in a small apartment at a Lansing hotel and the governor's term, as everyone knows, is for two years only. "There are more important things before me," he said, wearily. It was already 6 o'clock then, and many members of the executive staff had left for the day.

All of which brings us right back to where we started. How can the State of Michigan avert new taxes or a whooping big deficit? This is the top issue.

Indians Humble Morenci Cagers

WIN 29-22 DECISION HERE ON FRIDAY; TO MEET DUNDEE HERE FRIDAY EVE

By Jim Sisson

Two games separate the LCAA leading Tecumseh Indians from the second place Morenci five after clipping the Bulldogs scalp here last Friday with a 29-22 decision. This victory sets the Warriors out in front to such an extent that they will have to win only two of the next four league games to cinch at least a conference tie.

Coach Myles Runk's charges had trouble getting going on their own hardwood as the determined Morenci quintet hit hard in the opening clash. The Braves discovered themselves trailing 8-5 in the initial stanza and collected themselves to reverse their position.

By the halftime intermisson the Indans had climbed out of their hole to a 12-12 deadlock. After the time out refresher the local lads reentered the court to sweep the third period and drive into a 21-19 lead.

The final quarter was awarded to the increasing power of the Orange and Black as the home town boys slipped satisfied with 3 to establish the 29-22 final score.

Ben Hammack topped the victors tallying with three field goals and a free toss to net seven points. The remainder of the Tecumses scoring was evenly distributed among the cagers, bearing out the Indian teamwork.

LaMar Cheever deserved defensive credit as he held down Ransom Badgley, the previously high scoring Bulldog center, to the insignificant total of three points.

The Reserve squad racked up their third triumph of the current season as they piled up a 27-24 victory margin. Norbert O'Hara paced the junior Warriors with eleven counters.

Tomorrow evening the Tecumseh five will entertain the Dundee team in a non-league encounter. The Braves will also be in quest of their ninth straight win, in their opening game the Indians nosed out the Dundee Vikings 24-21 and a repeat in excitement is expected.

Next Tuesday, the Runk aggregation travels to Monroe Catholic Central in another non-conference tilt. The Orange and Black were victorious 33-23 in the previous engagement.

Funeral services were held Tuesday afternoon at the Collins Funeral Home. Rev. Norman MacNaughton officiated and burial was in Ridgeway cemetery.

Says 90 Per Cent Of All Business Ventures Fail

Although more than 90 per cent of all of the business in the United States is done by so-called small business, 80 per cent of such new ventures do not last for a five-year period and every day 500 small businesses fail, Rollo Pietrie of the United States Department of Commerce, Detroit, told members of the Rotary Club here, Tuesday. Mr. Pietrie addressed the club following its dinner meeting at Brees House. He was accompanied by V. M. Giger, also of the department, and they were the guests of John R. Thompson.

Mr. Pietrie explained the work of the Commerce department and declared that it is the peoples contact with Washington if they would but use it. "We do not sell anything, regulate anything, loan money or tell you how to run your business," the speaker said. "Ours is a service department, the service being yours without charge, if you will but ask for it."

The speaker pointed out that the deparment has as its fingers' ends a host of information that is valuable to any man in business. "If you meet a problem that you do not understand, write to our department," he said. "If we can find the answer we'll be happy to do it for you, or we will refer you to sources where the answer can be obtained."

The Commerce department was established under George Washington, Pietrie said.

Murdoch Quits Presby Pulpit

WILL GO TO PRINCETON, ILL., A LARGER CHURCH, HE TELLS CONGREGATION

The Rev. James Cameron Murdoch, pastor for the past five years of the First Presbyterian church here, announced his resignation to the congregation at Sunday's service. The Rev. Mr. Murdoch will complete his ministry here on Sunday, February 23, and two days later, with his family, will move to Princeton, Ill., where he will become the pastor of the First Presbyterian church in that city. Princeton is a town of about 6,000 population, and the church there has a larger membership than the Tecumseh church.

During Mr. Murdoch's ministry here, records show that 150 new members were added to the church roster, with 130 baptismal services. The church's financial receipts were quadrupled the first year he was pastor, and during the next four years they were tripled as compared to the year preceding his pastorate. Church benevolences also were doubled.

Other accomplishments during the five year period include the installation of a new heating plant in the church, the remodeling of the chancel, the purchase and installation of a new organ, the purchase and erection of a new illuminated bulletin board, and the purchase of 60 new robes for the choir and new hymnals for the church. New asbestos tile covering was laid in the foyer of the church and a new baptismal font was contributed to the church by the Boyce family. New chimes and amplifier were presented to the church by E. M. Campbell. Floors in the sanctuary and the dining room were refinished, and the exterior of the church was painted and the steeple

Tecumseh Area Escapes Sleet

DAMAGE HEAVY IN ADRIAN, BLISSFIELD VICINITY AND POINTS SOUTH AND EAST

Tecumseh and its immediate area escaped heavy damage from last week's severe ice and sleet storm, but sections south and east of here, especially in Adrian, Blissfield and points south and east of there, were severely hit. Damage, it was said, will run well into thousands of dollars.

The rain, ice and sleet storm started here last week Wednesday night and continued through Thursday, changing to snow during the last hours. In Adrian, limbs, telephone poles and wires snapped under the heavy ice, as they did in Blissfield and east and south of there, especially in the Sylvania area. Phone service was interrupted to Toledo, and in Sylvania electric service was down for a time.

The weather warmed up over the week-end and on Monday, but Monday night the temperature began to drop until near zero readings were reported Tuesday morning. Continued cold throughout the week is forcast by the weather bureau.

INJURED IN FALL

James Kash, aged eight years, is a patient in Tecumseh hospital suffering from injuries received Monday noon when he fell from the second story window of the Bills apartment, where he resides. He suffered a broken nose and head injuries and was removed to Tecumseh hospital. Reports said that he is recovering and soon will be released.

$75 FIRE LOSS

Fire, which started from an overheated furnace, did about $75 damage to the Claud Baker house, about 12:15, Tuesday noon. The local department answered the alarm. The property is owned by the Ford Motor Co., and was formerly the McLain property on the Holloway road, southeast of here.

A DANGEROUS CROSSING

A few weeks ago we called the public's attention to the fact that the County Road Commission was neglecting its job of caring for trunk line highways during the ice and sleet storms that made travel slow and very dangerous. Roads for the most part were not sanded, hills and intersections were hazardous—all for the lack of attention on the part of the county department.

Now, we'd like to call the Commission's attention to another danger spot, one that is certain to take its toll in human life unless some steps are taken to correct it. We refer to the D. T. & I. railroad crossing at Birdsall.

We understand that only one train a day operates over this line, and that the train travels at irregular hours. True, it is a slow freight, but trains traveling at any speed across an intersection are dangerous. Twice some days this freight train crosses State Trunk Line M-52 at Birdsall.

We'd venture to say that there are many folk who do not know that the D. T. & I. line through Birdsall is still in use. Seldom do you see a train there. There are no electric warning signals, just a post and cross arms, notifying you that there's a railroad crossing. Such a sign could be found on any back country cross road, but certainly such a warning arrangement has no place on a trunk line that carries as much traffic as M-52.

Sooner or later there is going to be a serious accident at Birdsall. When it happens the fault will lie not with the motorist but with the railroad and the Road Commission for neglecting to install proper warning signals.

Let's hope, if it is the County Road Commission's business to urge the installation of such signals, thatp rompt action be taken before it is too late.

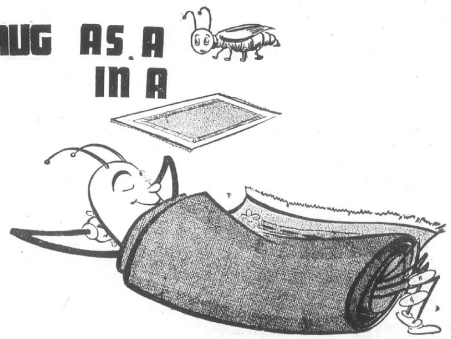
SNUG AS A BUG IN A



Your House Can Always Be Cozy and Warm

Maybe your house was built before the days of insulation, storm sash and modern building methods but that is not any reason why you can't "modernize" it and make it just as liveable as any of the 1947 models.

We can build storm sash for your home for as little as $5 an opening. And, we can sell you insulation that you can install yourself that is equally as low in price.

Insulation, you know, pays for itself in from three to five years in fuel saving alone. Think of it—it pays as it gives you comfort in both winter and summer.

Why don't you act now to modernize your own home? We'll be happy to assist you, to give you tips that will make your home "as snug as a bug in a rug."

To Keep Well!

A Burned Finger Can Be Very Painful

Only recently a woman visited our store and inquired if we knew what she might use to relieve the pain of a grease burn. She had burned her fingers painfully while working in her kitchen.

Of course, we recommended an ointment that gave almost instant relief, and she was happy. We also told her that she should have a supply of "emergency medicines" in her medicine chest to take care of such needs when they arise.

Is your medicine chest sufficiently stocked to meet emergencies? Check it over today and if you need ointments, bandages, tape, etc., etc., see us.

Treat injuries instantly. If, however, they fail to respond to home treatment, call your doctor. He knows exacly the things that should be done and we know how to fill his prescriptions with fresh, potent drugs.

BOY SCOUT WEEK

Nearly 2,000,000 Cub Scouts, Boy Scouts and Senior Scouts will observe the 37th anniversary of the Boy Scouts of America during Boy Scout Week, Feb. 7th to 13th. Through their World Friendship Fund of voluntary gifts the Boy Scouts of America have given $110,464.36 to help Boy Scouts overseas rebuild their organizations. During the first year of their "Shirts-Off-Our-Backs" project more than 400 cases—or twenty tons—of Scout Uniforms and equipment collected from Scouts were contributed to Scouts in 13 nations. Scouting has been an active force in promoting better understanding and mutual goodwill among the nations. Above is the official poster marking the event.

Scouts Observe

(Continued from Page 1)

"There are now nearly 50 Scouts in Tecumseh's two troops." Mr. Campbell said, "and Scouting in Tecumseh is on the up-grade. Interest is keen among the boys, and I sincerely hope that there will be a large attendance at the Court of Honor next Tuesday. It will be Tecumseh's way of showing its support to this fine organization." Scouting is sponsored in Tecumseh by the Rotary club, and Mr. Campbell has been named as the club's chairman in charge of all activities.

The theme of the aniversary is "Scouts of the World-Building for Tomorrow." Through the World Friendship Fund of voluntary [illegible] established two years ago by the Boy Scouts of America, they have given $110,464.36 to help Boy Scouts overseas rebuild their organizations.

To give the most helpful assistance within their capacity, the Boy Scouts of America have dealt only with Scout officials overseas recognized by the International Scout Bureau in London. Already 119 shipments of Scout literature, equipment, office supplies and other Scouting materials have been sent to 32 countries.

The National Council of the Boy Scouts endorses the work of the World Friendship Fund in a resolution which says in part:

"Scouting has always been an active force in promoting better understanding and mutual goodwill among the nations, and will be a stronger and more powerful influence than ever in promoting world peace.

"The Boy Scouts of America are eager to help Scouts abroad rebuild Scouting and have established the World Friendship Fund for this purpose. Everyone connected with Scouting and every friend of Scouting has an opportunity thru this fund to have a share in the program."

repaired. A new and beautiful painting was done in the church by Earl Bryan, the gift of Wade L. Jones and the late Mrs. Jones. One hundred new Bibles were secured for the church pews.

"I am indebted to Ray W. Herrick and the Tecumseh Products Company for many very generous gifts, and to all of the members and the friends of the church who gave so splendidly [illegible] fine leadership of John R. Thompson, who served on the board during my ministry. All that I did was 'a little needling and a lot of talking,'" Mr. Murdoch said in summing up the church's success. "We are very grateful to God for the privilege of having served the Tecumseh church and the community."

Records also show that the minister organized and maintained for two years the Westminster club for men, and organized the Junior Christian Endeavor Society, which has been meeting for four years. He also installed the youth budget envelope system in the church, and helped to organize the Community Youth Club, acting as its chairman the first year. He reorganized the Community Daily Vacation Bible School and acted as its dean in the summer of 1946, and for a year he served as a member of the Lenawee OPA board, on the tire and automobile panel. He was a member of the Rotary club.

Four of the Murdoch children graduated from Tecumseh high school during the five-year period. George, a 1943 graduate, is now at the University of Michigan. Douglas, who graduated in 1944, and who was popular in basketball and football now is a student at West Michigan College, Kalamazoo. John, a 1946 graduate, an all-county football guard during his junior and senior years, is in the Naval operations offices, Washington, D. C., and Lucille, a 1946 graduate, is a student at Blackburn College, Carlinville, Ill.

Every man and woman is interested in LIFE.

LIFE is not a weekly publication.

The gift of God is ETERNAL life.

Except we learn the purpose of life as revealed to us through Jesus we do not live.

"I am come that ye might have life, and that ye might have it more abundantly," says Jesus.

Let us GO TO CHURCH and learn of LIFE from Him.

Health Program Given Approval

PARENTS COOPERATE WITH HEALTH UNIT IN EXAMINATIONS OF SCHOOL STUDENTS

Parents of local students this week won the praise of public school authorities for their fine cooperation with the county health department in conferences regarding the welfare of their children.

At recent child health conferences conducted by Dr. H. C. Huntley and other members of the staff of the Lenawee County Health Department, over 70 per cent of the parents invited to attend were present. Talks between parents, the teacher of the child and Dr. Huntley resulted in recommendation for 85 corrective measures including 23 for defective vision, eight for adenoids and tonsils, 39 for teeth, four for orthopedic weaknesses, 17 for malnutrition, and three for miscellaneous weaknesses. It was further recommended that corrective measures be carried out by family physicians and dentists. Eighty-four children, screened out in previous inspections were re-examined during the conferences. Corrective measures recommended at previous inspections this year had been already undertaken in seven cases.

Parents who indicated financial inability to obtain the necessary services were informed that funds had been pledged by local service organizations to assist the parents in obtaining such services. It is expected that this phase of the program will be carried out on a confidential basis through the cooperative efforts of the school, the local medical staff and the Tecumseh Health Education Committee headed by Mrs. Richard Preston.

In other mid-year conferences regarding school achievement parent-teacher conferences were recently attended by parents of 67 per cent of the 460 children enrolled in the elementary grades. Mrs. Boltz, fifth grade teacher, reported a one hundred per cent attendance by parents of her 42 students.

Wit And Wisdom Club Entertained On Monday

The Wit and Wisdom club was entertained Monday evening in the home of Mr. and Mrs. E. A. Collins with Mrs. Florence Whelan and Mr. and Mrs. Glenn VanDenbergh assisting.

The musical program was opened with a talk "Music Appreciation" and a piano solo "Music in the Air" by Mrs. Collins. She then presented William Damon, jr., who spoke briefly about his violin which was made by his father in the early 1900's. Mr. Damon then gave violin solos "From the Cranebreak" by Gadner; "Der Sohn der Haidle" by Keler Bilo, and an encore, with Miss Arlene Peugeot as piano accompanist.

Mrs. Collins then told of "The Development of the Harp" and introduced Mrs. Charles Lundberg, harpist from Adrian who gave a recital of the following numbers: "Valse Caprice" by Verdalle; "Waltz in A Flat" by Brahms; "Aeolian Harp" by Godfried; "The Last Rose of Summer" and "Believe Me If All Those Endearing Young Charms" arranged by Labzedo. Mrs. Lundberg then explained the construction of the harp and how the pedals were used.

In conclusion refreshments were served.

She is shown at St. Agnes hospital as she holds her famous month-old quads for the first time. At left are Tommy and Bruce, while at right are Joan and Donald. The children are reported to be doing exceptionally well and to be growing fast. The parents have been offered homes from one end of the country to the other—and jobs for the father.

Legion Speeds Its Membership

UNDERWOOD-ORR POST WOULD LIKE TO DOUBLE ITS STRENGTH DURING YEAR 1947

Underwood-Orr Post, American Legion, Tecumseh, is seeking to double its strength in members during the coming year, and already has added 35 new members since New Year's Day, M. L. Dannells, jr., second vice commander said today. The post now has a membership of nearly 300.

"We plan to enroll 157,683 veterans of both World Wars in our organization this year," says Earl F. Ganschow of Saginaw, state commander of the American Legion.

"In 1946 our membership totaled 100,000, or approximately two per cent of the entire population of the state. For 1947 we have raised our goal to three per cent, and expect to reach the 157,683 quota early in the year."

The American Legion, largest of all veterans' groups, entered the new year with 535 posts located in 340 towns and communities over the entire state, with every county represented.

Well over 60 per cent of the Legion membership is now composed of World War II men and women, and 140 of the organization's 535 posts have been formed since V-J Day. A state-wide membership campaign for 1947 is under way, and already a considerable number of posts have exceeded their 1946 totals.

International in scope, the American Legion is organized in every state in the Union, as well as in the U. S. territories and several foreign countries. Last year 3½ million veterans, in 15,000 posts, were enrolled under the banner of the Legion.

From where I sit ... by Joe Marsh

Lem's Dogs vs Thad's Chickens

Running a newspaper, you get to know a lot about human nature.

Thad Phipps was in the other day, all burned up. Wanted me to run an item on how Lem Martin's dog had raided his chickens again, and ought to be put away by law.

I told him: "Lem was in on Saturday. Said you shouldn't be allowed to keep those chickens so close to his house—and in a residential zone, at that."

Thad shuts up right pronto then. And that very evening I see him making his peace with Lem at Andy Botkin's Garden Tavern —over a friendly glass of beer.

From where I sit, anyone can find something in his neighbor to complain about. (Some folks may even disagree with Thad's right to enjoy that glass of beer with Lem!) But where would we be if everybody tried to have a law passed against everything they disagreed with? We wouldn't have many neighbors left!

It's Too Late To Worry After the Crash!
Protect Yourself With Insurance

MOST OF US WORRY. Some of us worry when it is too late. Such is the case of the man who, after his car has been involved in an accident, worries because he was not properly insured.
ARE YOU THAT MAN? Is your car protected by insurance? What would happen if your car became involved in a serious accident? Would you be protected, fully, by the insurance you now carry?
ANSWER THE QUESTIONS HONESTLY! You can't afford to be underinsured. Damage suits sometimes wipe out home and business.
SEE US FOR PROTECTION before it is too late.

TRUESDALE HEADS NEW TICKET IN VILLAGE POLITICAL RACE NEXT MONTH

John C. Truesdale was nominated for the office of village president by the Progressive Party at its caucus at the council building, Monday evening, and a complete slate of candidates for other posts in local government also was approved. The caucus was attended by about 100 voters, and balloting on contested nominations at times was spirited. It was the first time since 1936 that any party other than the Peoples has held a caucus in this village, and assures two tickets at the election next month.

Four names were laced in nomination for the office of president: Mr. Truesdale, Earl Lindsley, Richard F. Roe and Paul Breitenwischer. Mr. Breitenwischer withdrew his name. In the balloting, Truesdale received 65 votes, Mr. Roe 19, Mr. Lindsley 11 and Breitenwischer 5.

For the office of clerk, the name of Wade L. Jones was presented and the nomination was unanimous and without opposition. Mr. Jones is a member of the Peoples party and is now clerk of the village, an office he has held for several terms. His nomination by the Progressive party was considered as an endorsement.

Charles Fay was the unanimous choice of the caucus for the office of treasurer and for the post of assessor, the names of Lester Rogers and Thomas O'Hara were presented. In the balloting, Mr. Rogers received 23 votes to Mr. O'Hara's 32.

Three nominations were made for trustees. First, the names, Archie Porter, Howard Diedrich and Clyde Drewyor were submitted and in the balloting Mr. Porter received 53 votes, Mr. Drewyor 27, and Mr. Diedrich 14, and Porter was declared nominated. Next, the name of Charles Mensing was proposed and he was the unanimous choice of the caucus. In balloting for the third trustee, the names of Mr. Diedrich, Mr. Drewyor and George McCombs were presented and in the balloting Mr. McCombs received 37 votes, Drewyor 27 and Diedrich 19, McCombs was declared nominated.

John Saling was named as chairman of the caucus and M. L. Dannells, jr., served as clerk. The tellers were Halsey Eggleston and Russell Garno.

The Peoples party will hold its caucus at the council building next Monday evening at 8 o'clock. President J. Floyd Elliott, whose term expires next April, heads this party and all other village officers who are rounding out their terms also are members. They are: clerk, Mr. Jones; treasurer, K. D. Hall; assessor, Lester C. Rogers; and trustees, E. H. VanVleet, Howard Truesdale and J. H. Rohweder.

Dundee Cagers Bow To Indians

VISITING VIKINGS HUMBLED, 32-20; BLISSFIELD HERE ON TUESDAY

Tecumseh confiscated its 10th straight victory Tuesday evening in downing the Monroe Catholic Central five, 38-26 on the Monroe gym. The Indian substitutes saw action throughout the final period and had come from a 15-8 halftime score. Ben Hammack gained the scoring laurels with 12 points.

The Warriors also won the Reserve preliminary in a 28-26 thriller with McDowell and Colson leading the tallying.

By Jim Gleson

The power of Coach M. E. Runk's cagers was tested as they came through in the second half of a game last Friday to overturn the Dundee Vikings, 32-20. Another sell-out crowd packed the Tecumseh gymnasium to witness the hard fought battle in which the Indians had to come from behind to capture.

The quick aggressive Vikings pulled out in front immediately, taking a 10-2 lead to head the fast scoring in the opening period.

However, the Braves, not to be outdone, calmly settled down to the serious business of winning their ninth straight triumph. Led by the firing of Harold "Hoppo" Anderson, Warrior forward, the Orange and Black swept back into the running and trailed only 14-12 at halftime.

In the third stanza Runk's charges edged away from the faltering Dundee five to take the initiative which they never relinquished. At the fourth quarter's opening the local lads were topping the scoring 21-18 and stretched the margin in the big waning minutes to establish their 32-20 victory.

Anderson flipped in four floor tallies and a free toss for the night's nine point scoring lead. He was tagged closely by his teammate, Ben Hammack, who acted as captain for the encounter and rung up eight markers.

Dave Dick's junior Warriors also collected a winning tilt as did the Tecumseh 8th graders. The Reserve squad piled up a 28-22 victory, spirited by Les Phibbs and Doug McDowell in their fourth triumph of the season.

Clinton will act as host to the invading Tecumseh five tomorrow evening in an important clash on the schedule. The Indians racked up a 48-24 success in the previous outing but that was a hot night on home grounds for the Runk quintet and the rival cagers are out after revenge.

On Tuesday next week, the Blissfield Sugar Boys will journey to the Tecumseh hardwood for a return engagement. The Sugar Boys are in the cellar of the L.C.A.A. but worried the Braves last time in their closest league contest 31-25.

The injured, who were brought to Tecumseh hospital, are: James K. Nelson, 42, superintendent of Onsted school; Mrs. Nelson, 43; Ted E. Covey, 40, and Richard Neeley, 21, both of Cambridge Junction. Mr. Nelson suffered a broken breast bone, broken nose, cuts over one eye and one leg; Mrs. Nelson suffered a dislocated hip and severe gashes on the leg. Mr. Covey, a gasoline station proprietor, has a broken right leg, broken jaw, fractured ribs and cuts and bruises. Mr. Neeley, who had a broken right leg and possible internal injuries, was moved later Sunday to Mercy hospital in Jackson. Eileen Nelson suffered only minor bruises and was not hospitalized.

Mr. Covey, driver of the other car and Mr. Neeley, were drawing a trailer loaded with two drums of anti-freeze. The collision set fire to the Covey car but the anti-freeze did not ignite. However, the heat exploded several rifle shells in the glove compartment of the Covey car. Both machines were wrecked. Conorner Paul Mott of Adrian was called and decided no inquest was necessary. Mr. Covey stated he did not see the other car until just before the crash, due to blowing and drifting snow.

Mrs. Handgen was born in Adrian township and was formerly Eva Lewis. She graduated from Raisin Valley Seminary and after her marriage to John Handgen, moved to Indiana where she had since made her home.

She leaves a brother William Lewis of Adrian and several grandchildren. A son Orrin preceded her in death.

Paul Clauda was the low bidder and work is to be started immediately. The district acquired the building from the Ford-Edison Institute last fall, but has been unable to use it during the winter, because of inadequate heating facilities.

The board also went on record as favoring a suspension of students who commit major infractions of school rules. It was indicated that such suspension might be permanent.

Problems confronting the board in connection with next year's budget also were discussed. These include the state aid muddle resulting from litigation over the proposed sales tax diversion which is making it difficult for boards to estimate their income from state sources for the year 1947-48.

Vets May Join Navy's V-6 Plan

WILLIAM WRIGHT NAMED AS LOCAL RECRUITING OFFICER FOR TECUMSEH AREA

Lieut. William A. Wright has been named as the officer in charge of the U. S. Naval Reserves volunteer recruiting office here for the purpose of enrolling former veterans of all branches of the armed forces, including ex-WAVES, in the new Naval Reserve V-6 Inactive Duty Program. Lieut. Wright served with the Navy during the war and has been discharged and placed on the inactive list.

Lieut. Wright, who this week received his appointment, is a member of the C. A. Wright & Son drug firm here, and he will meet all applicants in his store and furnish them with all the necessary information regarding the program. He also is empowered to administer oaths to all who enroll.

The U. S. Naval reserve traveling unit was in Adrian and Blissfield this week with Lt. J. H. Faber, recruiting officer in charge.

Veterans may now earn as high as $264 a year for 48 weekly meetings, according to the recruiting officer. It is not necessary for the veterans to attend weekly meetings but for joining the V-6 inactive duty program he retains the rate he held at discharge, maintains longevity the same as being on active duty and always remains a civilian. It is only after enrolling in the V-6 that reservists are eligible to volunteer to join the Organized Reserve, that part of the reserves for which actual pay is received.

Reservists cannot be called to active duty without their own consent except in the event of a national emergency declared by Congress, Lt. Faber pointed out. The reservists are not required to report to their draft boards and no physical or mental examinations are required.

PRIMARY ELECTION LAW IS SLAPPED BY SPEAKER

The evils of the primary election law were discussed by Oliver J. Golden, Monroe attorney, when he addressed the Tecumseh Rotary Club, Tuesday evening, following dinner at Brees House. Mr. Golden was the guest of John R. Zeigler, and Al Weber of Monroe, president of Rotary in that city, also was a guest.

Mr. Golden favored repeal of the primary law and the return to the convention system of nominating candidates for public office. He declared it impossible for electors, particularly in large cities, to familiarize themselves with the ability of candidates, and pointed out that "ten sheet size" ballots such as are used in Detroit make intelligent voting impossible.

The speaker also slapped at the wasteful spending of tax money, declaring that now the federal government is paying municipalities to plan ways and means to spend public income. Detroit, he said, has spent thousands of dollars on plans for the beautification of its river, but finds itself broke when the necessity of cleaning the rats from its alleys becomes a number one health problem. He also declared that if there is a surplus in the state's treasury, taxes should be reduced rather than the staging of a mad scramble between local districts for a share of the spoils.

CONSERVATION LEAGUE PLANS ANNUAL PARTY

The Lenawee County Conservation League will hold its annual entertainment on Thursday evening, March 6, in the Adrian Armory. IS LABOR AWAKENING?

An interesting fact is revealed in the recent poll conducted by McGraw-Hill research organization which shows that 65 per cent of the miners queried in the Middle West, Eastern and Southern coal regions feel that they should vote secretly on future strike calls. A majority of the miners were not in favor of government domination of contract settlements, and 60 per cen said that there have been too many work stoppages.

The most interesting fact developed by these expressed opinions is that the miners, by and large, are not as favorable to continued one-man dictatorship of their union as many people believed. The individual miner, when he adds up the wages lost by strikes, has every right to wonder if they were worth while, and if a wiser course of settlement might have been pursued.

Labor, sooner or later, must realize that its future welfare depends upon prosperous, producing industry. Broke industries, depressed industries, don't provide steady jobs at high wages. Yet some of labor's present policies are a direct threat to industrial solvency.

A glowing example of such a policy is the "portal-to-portal" pay suits, now totaling over five billions of dollars. It is perfectly clear that if all the demands the unions make in these suits were granted, many companies would go into bankruptcy. And that is the surest of all roads to depression and unemployment.

Congress may act on these "portal" demands, and such action may be necessary but that, after all, does not make the attitude of some labor leaders any less dangerous. Some of these leaders, it seems clear, are out to milk business of every possible cent—regardless of consequences.

Once we forget that a man's earning power must be based solidly upon his productive abilities and enterprise, we are paving the way for depressions and economic dislocations on a terrible scale.

Ruthless labor leaders should not forget this.

A Little Planning Can Make Your House More "Liveable"

You'll be surprised how a little planning, and very little expense can make your house more "liveable" for every member of your family.

Today, its not difficult to remodel the basement, making it into a rumpus room that every member can enjoy. Tela-posts, for leveling floors cost as little as $8.50.

Aquella waterproofing paint for cement basements is easily applied and changes the entire appearance of your walls.

And, for these extremely cold days and nights, why not install a few winter windows. We can make, to your order, combination storm sash and screens for as little as $5 an opening.

Why not plan NOW to make your home more liveable — inexpensively?

On Target for '47

STAND back — take it all in — and make sure you don't miss a thing.

For what we've pictured for you here is the whole Highway Hit Parade of 1947 — wrapped up in one glamorous bundle.

Those long, flowing, follow-through fenders — there's a style note you'll see echoed in automotive fashions for a long time to come.

That generous beam amidships — there's the drivingroom you've been seeking, with legroom, headroom, elbowroom all around.

That broad deep bonnet spells power aplenty — eager, lively Fireball power from an engine that seems to stay forever young.

That hug-the-road look means steadiness; coil springs on all four wheels spell matchless, floating ride; wide-swinging doors open on interiors both handy and handsome in arrangement.

In a word — here's a car squarely on target, whether you go for style or size, performance or value. Here's America's most wanted car — and easily America's most sought-after buy.

So why let the crowd get ahead of you? Why wait—when waiting can only postpone delivery, not hasten it.

Just remember that faint heart ne'er won a fair car like this — and get your order in!

K. of P. Observe 83rd Birthday

LOCAL KNIGHTS GO TO HILLSDALE TO TAKE PART IN CELEBRATION NEXT WEEK

In observance of the 83rd anniversary of the Knights of Pythias, a group of Knights from Tecumseh and vicinity will be guests of the Hillsdale lodge on Tuesday evening, February 18. A special bus will leave Tecumseh at 6 p.m. to carry members and candidates from Tecumseh and Tipton lodges.

Although the order was founded in Washington, February 19, 1864, it actually had its beginning at Eagle Harbor, Michigan, in 1858. Justus H. Rathbone taught at Eagle Harbor that year and while there formed an amateur theatrical society. One play, based on the story of Damon and Pythias, gave Rathbone the idea for a new fraternal order. He wrote the ritual evenings in the school house where he taught during the day. This schoolhouse, still standing, is now a shrine of the Knights of Pythias order.

When Rathbone was five years old in 1844, his mother presented him with a small pocket Bible which he always carried and which he used to obligate the first members of the new order. He then presented the Bible to the Supreme Lodge and in commemoration of the founding of the order this Rathbone Bible is being taken on a tour of Michigan, where it will be shown at six area meetings, one of them at Hillsdale, Tuesday evening. Other relics will also be displayed at these meetings.

The ladies organization when first formed was known as the Rathbone Sisters but in more recent years was changed to Pythian Sisters.

Pulpit Committee Is Named By Presbyterians

The congregation also acted on the resignation of the pastor, the Rev. James Cameron Murdoch which will be consumated at an adjourned meeting of the Lansing Presbytery to be held in the local church Tuesday afternoon, February 18. The Rev. Mr. Murdoch will preach his farewell sermon February 23, leaving that week for his enw pastorate in Princeton, Ill.

They will make their home in Ann Arbor where he attends the University of Michigan.

PRESBYTERIANS PLAN GROUP REORGANIZATION

ANNEX TO ONSTED SCHOOL DESTROYED IN FIRE EARLY ON TUESDAY MORNING

Loss, estimated at more than $75,00, resulted about 2:45 Tuesday morning when the frame one-story annex of the Onsted school was destroyed by fire, along with a quantity of equipment. The structure was built in 1943 and accommodated 130 children in the kindergarten, first, second and third grades.

The fire was discovered by Norman Peters who turned in the alarm but the Onsted department was unable to bring it under control. The loss is partly covered by insurance.

The Onsted schools have not been meeting since last Friday, due to the bad condition of the roads. It was said that new accommodations for the students would have to be found, but no announcement as to when classes could be resumed was made.

FIRE AT CLINTON

Fire, about 9:45 Monday evening, badly damaged the interior of a double house on Tecumseh Road in Clinton, owned by Mrs. G. H. Lancaster. The house was occupied by Mr. and Mrs. Cyril Bouckert and Mr. and Mrs. John Feldkamp and their son, Jackie. The Bouckerts were in bed when the blaze was discovered in their apartment, and he was slightly burned when he rescued the family dog from the basement. The Feldkamps were unaware of the fire until neighbors rapped at their door. A considerable amount of clothing and furnishings were destroyed. The loss is covered by insurance.

March of Dimes Gets $307 Here

TECUMSEH'S TOTAL CONTRIBUTION TO AID FIGHT AGAINST INFANTILE NEARLY $700

The March of Dimes campaign, which ended here last week, received total contributions of $307.34, Wade L. Jones, president of the Rotary [illegible] sponsored the event, announced today. The money has been forwarded to the national organization.

Mr. Jones said the largest gift was from the United Products Workers Union, a check for $100. The Rotary club contributed $48.50, the local lodge of Eagles gave $39.23, and the Semper Fidelis Class of the Methodist church gave $5.

"We are very happy about the campaign," Mr. Jones said, "and I would like to take this opportunity to say thank you to all of those who assisted in the drive, and to all of those who contributed."

Two weeks ago Tecumseh's campaign for the Sister Kenny fund netted nearly $360 in contributions, according to Bruce W. Hoffman, chairman. Combining the two totals, this community gave nearly $700 to aid the two organizations in their fight against infantile paralysis.

Funeral services were held on Monday, Rev. N. Mac Naughton officiating and burial was in Ridgeway cemetery.

The Good Cheer Class of the Baptist church will hold its annual party on Friday evening, February 14, at the church. A potluck supper will be served at 6:30. The program is to be furnished by the men.

Five schools were entered and teams were drawn. Tecumseh affirmative, drawing Ypsilanti Central for the first contest which they won. In the second contest they drew a bye and neither team debated. It Doesn't Pay To Neglect a Cold

It is a fact, and statistics prove it, that the common cold causes more time lost from work than any other one disease. Yet, how often we hear it said, "Oh, I have only a cold!"

If you feel a cold coming on, do something about it. We have many home remedies for colds which should be kept in your medicine cabinet. Take them when you feel the first symptoms—sneezing, aching muscles, headache or sore throat.

However, if your cold does not respond promptly, call your doctor. And, if he gives you a prescription, bring it to us for careful compounding.

Rent Control Regulation Explained By Director

Charles Baker, area rent director, Jackson, said today on November 1, 1946, the rent regulation was amended to require every landlord of a hotel, rooming house or motor court to file a supplement registration statement. On the basis of the information furnished thereby, the rent director classifies each establishment as a transient hotel, residential, rooming house or motor court.

He said effective January 20, 1947, the rent regulation was amended to permit proprietors of transient hotels, residential hotels and motor courts to apply on or afetr February 1, 1947, for decontrol of daily rates on transient rooms. If such application is filed with the rent director, decontrol of such daily rates will go into effect on February 15, 1947, or on the date the application is filed, whichever is later. Rooming houses are not affected. Forms are now available at the area rent office.

Baker said some establishments are under the erroneous impression that even though they have failed to file a supplemental registration and an application for decontrol, the daily rates on transient rooms will nonetheless be decontroled on February 15, 1947. It cannot be too strongly emphasized that establishments which have not filed a supplemental registration and which have not been classified following filing by the area rent director as a transient hotel, residential hotel, or motor court, cannot apply for decontrol of transient rooms since these are, under present regulations, rooming houses until otherwise classified by the area rent director. Local hotels and motor courts are advised to file a supplemental registration and obtain classification immediately in order that they may take advanage of the provisions permiting decontrol of daily rates on transient rooms. Until the classification is thus procured and thereafter the application for decontrol filed, all rates, including daily rates, remain subject to rent control.

KROGER CO. PROPOSES A RETIREMENT PROGRAM

CINCINNATI, O.—A retirement program for the 22,000 employees of the Kroger company has been approved by the board of directors and will be submitted to shareholders at the company's annual meeting March 5, it was announced today.

One feature of the program is that no contributions will be made by employees, all costs being paid by the company. Designed to provide a regular lifetime income for veteran employees after the close of their active business years, the program sets 65 as the normal age for retirement.

Annual retirement payments from Kroger, plus Social Security benefits would amount to between 20 and 40 per cent of average earnings for the 10 years preceding retirement, with the larger percentages applying to the lower income groups.

That Ring Around the Bathtub

Jeb Crowell blew his top the other day. Seems that for weeks he's been trying to get his youngsters to scrub out the bathtub after using it. And this night he sees *two* rings around it—one where young Sonny left off, and another about Pinky's level.

He raves and rants—and takes it out on the missus for her lack of discipline. And later that evening he sees her quietly polishing the hardwood table that's right by his chair. She's removing the rings he's left there with his evening glass of beer!

From now on, Jeb's careful to put his glass down on the table cover—like the missus does. And I hear he's a little more forgiving about rings around the bathtub. Just keeps on patiently reminding.

From where I sit, there are little annoyances in every family—conflicting habits and opinions in every community. A little patience—a little more "forgive and let live" is the only antidote.

SET UP HOUSEKEEPING ON OTHER SIDE OF WORLD

Husband, Wife and Two Sons Enjoy Life in Guam

Mrs. Helen Greenman and two sons who left January 3 from San Francisco on the USS Lejeune for Guam, to join her husband, Thomas Greenman, momm 1, arrived there January 20 and writes an interesting letter to his parents, Mr. and Mrs. D. A. Greenman of East Chicago Blvd., parts of which are as follows:

"Well, here we are in Guam, M. I., and all settled in our new home. We arrived Monday morning and Tom came aboard ship to claim us. It was a very thrilling moment.

"There was an unexpected thrill in going up to Japan first. Of course, we weren't allowed off ship but got to see quite a lot as we entered Tokyo Bay. We were able to see the volcano Fujiama. It's peak was covered with snow and was a very beautiful sight. We were lucky to see this as it is visible only about two days a week. We went as far as Yokosuka, the largest Jap naval base during the war. Only stayed there one day and it was very cold, right around 30. We saw some of the Jap ships which were sunk in the bay by our planes. There were quite a few Japs working on the dock. They are so sneaky looking. People threw gum and cigarettes to them and they would make a mad scramble for even cigarette butts. I took quite a few pictures while there and if they turn out all right will send you some.

"Saturday we passed Iwo Jima, came quite close, could even see people and cars with the spy glass Howie gave the boys. We have really enjoyed the spy glass all through the trip. Took some pictures of Iwo Jima, thought you might like to see where Howie was.

"Guam is a beautiful island, very hilly and not too hot either. The nights are very cool and we have slept under a blanket every night. I even wore a sweater to the show last night. We are going for a jaunt tomorrow after church to see more of the island.

"Our house is cute as can be, everything so handy, electric ice box, hot water heater and all. The furniture is all new and very nice. We have a 3-piece maple set in the living room, also another easy chair, bookcase, two floor lamps and a coffee table. At one end of the living room is our dining table and four chairs and we have a breakfast set in the kitchen. It is a Quonset hut but you would be surprised what cute houses they make. We are on a hill and have a wonderful view. Can see way out into the ocean. Will take some pictures as soon as it is painted outside.

"Tom is Chief Master at Arms now and everyone calls him "sheriff." Has his own jeep to use all the time. He is on a 10-day leave now so we are having a real vacation.

"Our house is like a Grand Central Station, some one here all the time, but I enjoy it."

Mr. Greenman has been in army service nine years. He served in the South Pacific all during the war and left here last March for the base at Guam.

Will Observe Day of Prayer

SEVERAL CHURCHES TO PARTICIPATE IN SERVICE TO BE HELD AT ST. PETER'S

The World Day of Prayer will be observed nationally on Friday, February 21. The day will be observed first in the Fiji Islands and New Zealand, since Friday dawns there while we are sleeping Thursday night. As the sun moves eastward, new groups in many countries will join in the same universal service of worship—dusky women from distant coral strands and steaming jungle trails; peasant women from the fields; East Indian believers in picturesque saris; veiled sisters from harems; Chinese in blue trousers; Japanese in kimonos; Germans, Norwegians and Hollanders now joining publicly instead of secretly; until late Friday night when the final reverent observance will be held by fur-clad Eskimos on little St. Lawrence Island off the coast of Alaska, thirty miles from the Arctic Circle—the whole family of the whole Church in the whole world remembering one another with love, regardless of race, nationality or creed.

The observance in Tecumseh will be held Friday afternoon at 2:30 in St. Peter's Episcopal church. The program for this year was written by a talented Indian woman, Mrs. Isabel Caleb, on the staff of Ewing college, located at Allahabad, India, and the theme is "Make Level in the Desert a Highway of God."

The various churches will take part and in opening, Mrs. H. P. Ford of the Methodist church will tell of the origin of the World Day of Prayer. The service is divided in four parts: "Meditation—Deserts" by Mrs. Lynn Hubbard of St. Peter's church; "Confession—Mirages" by Mrs. Margaret Kiuman of the Presbyterian church; "Thanksgiving — Oases and Caravans" by Mrs. Charles Manley of the Friends church, with vocal solo by Mrs. Murray Day; "Intercession—to Jesus the Head of the Caravan," by Mrs. Naomi Williamson of the Baptist church. NO BOTTLES—NO MILK . . . So acute has the shortage of milk bottles become that the U. S. department of agriculture and state agencies are lending their influence in an appeal to consumers to return the 25 million empties which have accumulated in basements and storerooms of the country. According to the dairy folk, it takes eight milk bottles to keep one bottle full in the icebox and those 25 million bottles are desperately needed to prevent a milk shortage.

Clinton Drops Game To Indians

RUNKMEN TO TRAVEL TO ADDISON FRIDAY EVENING FOR ANOTHER GAME

The Tecumseh Indians clinched at least a share of the L.C.A.A. basketball crown, Tuesday evening, by defeating Blissfield high school by a 32-23 score, on the Sugar Boys' court. La Mar Cheever was high man with 12 points. The Reserves also won, 22-16.

By Jim Sisson

The neighboring Clinton Redskins failed to halt the string of cage victories compiled by Myles Runk's Tecumseh quintet as they dropped a 41-32 contest last Friday.

The Indians moved into the Clinton court undefeated and remained so in the end, although the outcome was very questioable in the stubborn battle of rivals that resulted.

The third place Redskin five kept the Orange and Black busy trying to remain out in front as they trailed only 13-9 in the first period. At halftime the margin was changed only slightly and the visiting Tecumseh clan still clung out in front 19-14.

Enthusiasm was poured into the Clinton hosts at the intermission and during the third stanza they tossed ahead by one point for a shtrt interval only to fall behind again and for good. Topping the scoring at 26-23 heading into the final episode, the L.C.A.A. leaders leaped out to their 41-32 triumph.

The Clinton cagers had put up an unfailing effort in an attempt to obstruct the Tecumseh path, however, and gained the unique distinction of having scored more points against the Indians than any other opponent.

Bill Hayden's sharp-shooting paved the way for the Runk aggregation's eleventh win as he flipped six field goals with a toss from the charity stripe for good measure and 13 markers. Ben Hamtack ran a close second with his 12 counters for the Tecumseh cause.

David Dick's Reserve squad also racked up a victory with Norbert O'Hara leading the 35-31 thriller on 18 points.

Tomorrow evening, the Warriors are again on the road as they move to Addison's "cheese-box" gymnasium. The Panthers are a spotty functioning ball club, playing good and bad at times to gain a 3-4 record. The Addison lads dropped a 36-20 decision in their first Tecumseh encounter.

Votes In Primary Cost About $2 Each

COUNTY-WIDE, THE NON-ESSENTIAL PRIMARY COST TAXPAYERS ABOUT $3,000

The county-wide primary election last Monday, non-essential because only one name appeared on the ballot, that of G. Arthur Rathbun to succeed himself to office of circuit judge, cost Lenawee taxpayers approximately $3,000, or about $1 for each vote cast, a tabulation of returns indicates. The election was mandatory however under Michigan's primary election law.

As a result of the balloting, Judge Rathbun's name will appear on the regular election ballot in April, when again he will be unopposed for the office. In the city of Adrian, less than 2,000 votes were cast, the balloting there being heavier than in any other section of the county because city voters were choosing their municipal officers. County-wide, it is unlikely that another 1,000 votes were cast, and officials have estimated the election cost to be about $3,000.

In Tecumseh, there was no interest in the election, because of a lack of contest. Only 55 votes were cast, and the expense here was beween $90 and $100, Le Roy Titley, supervisor, estimated. In this township, therefore, votes here cost nearly $2 each.

A large interest in this service is anticipated.

Elliott Heads Peoples' Ticket

OTHER CANDIDATES NOMINATED AT CAUCUS, MONDAY—2-PARTY ELECTION MARCH 10

That Tecumseh voters will be given two tickets from which to choose village officers when they go to the polls on Monday, March 10, became definite, Monday evening, when the Peoples' Party, in caucus at the council building, nominated a complete slate of candidates for all offices. It will be the first time in more than 10 years that voters here have received more than one ticket at the municipal polls, and a record-breaking vote is expected.

At Monday's caucus, J. Floyd Elliott, incumbent president of the village was nominated to succeed himself to the office. Mr. Elliott is a veteran member of the council and has served several terms as president. There was no opposition to his nomination, which was by acclamation.

Wade L. Jones, a member of the Peoples Party and who has served Tecumseh for many years as clerk, was not a candidate at the caucus to succeed himself on the Peoples' ticket. Mr. Jones, a week previous, was nominated by the Progressive Party for the office of clerk, a move which was considered as complimentary and an endorsement. His name will, therefore, appear this year on the Progressive ticket rather than the Peoples' ticket.

At the Peoples' caucus, the name of James Artman for the office of clerk was presented, and a unanimous ballot by acclamation was cast.

The first contest at the caucus came when the names of Mrs. Martha Kidman and Mrs. Leon Williamson were placed in nomination for the office of village treasurer, a post now held by K. D. Hall, who was not a candidate. In the balloting, Mrs. Kidman received 67 votes to Mrs. Williamson's 20.

Lester Rogers, incumbent assessor, was nominated to succeed himself by unanimous ballot.

Three trustees were nominated, two of them to succeed themselves to office. The name of E. H. Van-Vleet, incumbent trustee, was nominated and the name of Fay Whelan was presented in opposition. In the balloting, Mr. Van-Vleet was defeated, Mr. Whelan receiving 38 votes to Van Vleet's 31.

The other two trustees were nominated by unanimous choice and acclamation. They are Howard Truesdale and J. H. Rohweder, both incumbents.

John R. Zeigler was named and presided as chairman of the caucus and Mr. Hall acted as clerk. The tellers were Earl Lindsley and Mrs. Edith Codling.

The ticket of the Progressive party, to be placed in opposition to the Peoples' at the municipal election here on Monday, March 10 will be as follows.

For president, John Truesdale; for clerk, Wade L. Jones; for treasurer, Charles Fay; for assessor, Thomas O'Hara; for trustees, Archie Porter, Charles Mensing and George McCombs.

This will be the first time since 1936 that two tickets have been offered to voters here in a municipal election and it is expected that the registered strength of the village will cast ballots. Mr. Jones said that registration cards are now being canvassed to determine the number of eligible voters.

AN OPTIMISTIC SIGN

During the war, and for some time after it ended, retail stores had to take whatever goods were offered them, even when prices were high and quality was low. Consumers had to be content with smaller and poorer stocks to choose from. This was a situation that couldn't be helped—it was the certain consequence of war's demands on our producing machine.

Now, however, times seem to be changing—and for the better. Business papers and trade journals report that buyers for retail stores are casting glassy eyes on substandard merchandise. They are questioning prices which seem out of line. They know that the consumer will again demand the best possible product for the least possible price—and they are out to meet that demand.

This certainly does not mean that prices are going to crack wide open—the pressures are still inflationary in many cases. But it does indicate that there is going to be less and less shoddy merchandise, and more and more goods which will offer maximum and dependable value in their price brackets. And, by the same token, store stocks are once more being built up to approximations of pre-war levels.

This is retailing's traditional service to the nation's consumers. We are as much pleased as anyone else to see the economy of scarcity gradually disappear.

Where Cissy Spent Her Honeymoon

Most of the young newlyweds in our town spend their honeymoon at Roundstone Lake or Jackson Falls; why the Martins even went as far as New York City.

But when Cissy Cupper married the young Carter boy, they allowed as how they were going to spend their honeymoon right here.

"There's no place better than our town," Cissy says. "And I'd like to start married life at home, with things Bud and I are used to."

Makes sense, come to think of it. Folks naturally left them alone; and except for occasional visits to the Garden Tavern for a glass of beer, they stayed at home, getting used to married bliss.

My missus prefers traveling—and that's her right. But from where I sit, there's no place better for a honeymoon—or *second* honeymoon—than right at home—with your own possessions, good home cooking, and a friendly glass of beer or two—with the best companion in the world.

Let It Snow...

Let It Snow...Let It Snow

Outside temperatures never worry you when your house is properly insulated and protected with storm sash. Snow or blow, sleet or cold, it makes no difference and, when it comes to heating bills, they, too, don't worry you because heating costs are reduced as much as one-third through proper insulation.

Why not insulate your house and begin enjoying its comfort immediately? Insulation works for you twelve months out of the year. When it's cold, it keeps you warmer; when its' warm it keeps you cooler.

Ask the family who live in an insulated house. They'll tell you about it better than we can.

TECUMSEH HOSPITAL GETS STATE PRAISE

Village Pictured As Community That Helps Self

Declaring Tecumseh Hospital to be one of two community-owned institutions of this kind in Michigan to be noteworthy, the Michigan Department of Public Instruction, in a new book entitled, "Help Yourself," praises Tecumseh for its far-sightedness in caring for its public health. The book's article on the local hospital, titled "Healthy, Wealthy and Wise," declares that by establishing cooperative hospitals, "wise communities safeguard their citizens' most precious asset—health."

The hospital at Tecumseh, the article goes on to say, "functions in an up-to-the minute, completely paid for building." Tecumseh, it continues, for years was dependant for hospital services on Ann Arbor or Adrian. In 1937, the town's chief manufacturer, (Ray W. Herrick), realizing that time spent in transporting injured or stricken persons to these cities might mean death instead of life proposed to a group of leading citizens that the town found its own hospital. Action followed his suggestion. A non-profit corporation, the Tecumseh Hospital Association, was organized, and committees to solicit funds for a building were formed. Citizens on every economic level responded, support Although at no time was pressure brought to bear, 98 per cent of these pledges, or about $40,000, was collected. With this money, on a plot for which the owner, Henry Ford, refused to accept payment, the Tecumseh Hospital was built. In May 1938, a new building, complete with twenty-one beds and eight bassinets, and clear of all indebtedness, was formally presented to the village.

Since its first day, the article goes on to say, the Tecumseh hospital has seldom had an empty bed. That is was too small to meet community demands was evident soon after it opened. Plans were drawn for additional bed space, a larger kitchen, new delivery room, and nursery. To provide for this expansion, the village issued bonds. In 1941, at a cost of just under $25,000, an addition which gave the hospital a capacity of 37 beds and 16 bassinets was built. Already this enlarged plant has been outgrown and further development is planned.

The story points out that to a large degree, the hospital is self-sustaining patients from the village and surrounding territory spending some $60,000 annually for services.

The other hospital mentioned by the department in its book is at Frankfort, Mich., where a makeshift building is being used until available funds can be used to erect a structure.

Protect Yourself With Insurance

MOST OF US WORRY. Some of us worry when it is too late. Such is the case of the man who, after his car has been involved in an accident, worries because he was not properly insured.

ARE YOU THAT MAN? Is your car protected by insurance? What would happen if your car became involved in a serious accident? Would you be protected, fully, by the insurance you now carry?

MINUTES OF THE BOARD OF EDUCATION
February 12, 1947

The meeting was called to order by the President, Mr. Touborg. Members present were Mr. Touborg, Mr. Spafford, Mr. Satterthwaite, and Mr. Lindsley. Member absent Mr. Helzerman.

The minutes of the last meeting were read and approved.

Upon motion made by Mr. Spafford and seconded by Mr. Satterthwaite, the bills as incorporated into the minutes, amounting to $2,063.25, were approved and ordered paid.

The superinendent presented preliminary budget data for the next school year as a means of acquainting Board members with the numerous complex problems resulting from the recent Sales Tax Amendment which must be taken into consideration in the preparation and adoption of a budget.

Upon the suggestion of Mr. Touborg consideration was next given to the problem of school discipline. It was agreed that the superintendent should be authorized to expel from school any students who wilfully and repeatedly violate school regulations either in matters of attendance or behavior.

Bids which were received from the Charles A. Seitz Company and the Clauda Plumbing and Heating Company for the installation of a new heating plant in the Brownville School were opened and read. The plans upon which the bids were based call for the installation of an oil fired hot water boiler in the utility building, with sufficient capacity to heat both of the present buildings and any additions which may be added in the future, and the necessary radiation for the present main building.

The bid presented by the Charles A. Seitzh Company called for an expenditure of $2,397.57 exclusive of the cost of the foundation of the boiler and the chimney. The bid presented by the Clauda Plumbing and Heating Company gave a quotation of $1,953.40 for the installation including the cost of the boiler bases.

Following a careful consideration of the bids it was moved by Mr. Satterthwaite and seconded by Mr. Spafford that the low bid of the Clauda Plumbing and Heating Company be accepted. The motion was carried.

Upon motion made by Mr. Lindsley and seconded by Mr. Spafford, the meeting was adjourned.

P. C. Satterthwaite,
Secretary.

We're Glad to Announce That

Harry Is Back!

We are pleased to announce that Harry Schuch is back with us again as Service and Parts Manager.

With more help available, and with Mr. Schuch in charge, we now are in a position to promptly care for your motor car needs. The war is over, and while shortages still prevail, we have not been in a better position in many years to serve you than we are at the present time.

Perhaps, in war time, some folk were forced to look elsewhere for service which we are sorry we could not give. Those days are gone—we now invite you to "come home" for the things you need. Ours always has been and still is "The Honest Service Garage," and we intend to defend that slogan.

So, regardless of the make of car or truck you drive, bring it to us for the service it requires. If you get service or parts from us that are not entirely satisfactory, see Mr. Schuch or Mr. Butler and "you will be satisfied." We are determined to meet your every driving demand to your complete satisfaction.

NINETY-SEVENTH YEAR—NUMBER FOURTEEN TECUMSEH, MICHIGAN, THURSDAY, FEBRUARY 27, 1947 FIVE CENTS PER COPY

Says Hospital Must Be Larger

INSTITUTION NOW OVERFLOWING; SHOWS PROFIT OF $6,345 IN 7 MONTHS

Tecumseh hospital must be enlarged, at least to a 50-bed institution, if it is to continue to meet the demands of the residents of this area, E. M. Campbell, chairman of its board of trustees, told members of the Rotary Club, when he addressed the group following dinner at Brees House, Tuesday evening. Ogland Lay, jr., technician at the hospital, also spoke.

During the month of January, Mr. Campbell said, Tecumseh's 34-bed hospital had an average patient load of 39 per day, according to the midnight count. During the 31 days of the first month of the year, 35 babies were born at the hospital, and there was an average of eight babies in the nursery at the hospital during each day of the month.

On the profit side of the hospital, Mr. Campbell said, the institution showed a gross profit of $6,345.59 from July 1, 1946, through January of 1947. Of this amount, he said, $1,647.43 was January profit. The hospital, he said, must have not less than 28 beds occupied constantly to meet its operating overhead, and pointed out that during the past seven months the occupancy has been far heavier than normal.

Mr. Campbell praised members of the staff of the institution and Miss Gertrude Spaulding, superintendent, for her excellent operating efficiency and management. The chairman also said thank you to the Nurses Aides who assisted at the hospital during the war years. "Had it not been for the work of this fine group of women," he said, "we would, I fear, have been unable to operate the institution because of a shortage of nurses." Campbell also praised the work of the Hospital Auxiliary, pointing out that heavy financial contributions from this organization had made possible many improvements, particularly the laboratory.

Mr. Lay, technician, spoke briefly, explaining his work at the hospital and pointing out the advantages of having a laboratory in such an institution for the benefit of both patients and physicians.

Next Tuesday evening, the Rotarians will hold their annual ladies' night, with dinner at 6:30 at the high school. "Dusty" Miller, nationally known humorist, will be the speaker.

Debating Team Hopes For Win

LOCAL GROUP, IF SUCCESSFUL FRIDAY, WOULD QUALIFY FOR SEMI-FINALS

Tecumseh high school negative debating team composed of Irving Shaw and David Green will meet Ann Arbor here on Friday, February 28 at 3:15 in the high school auditorium. This will be the quarter-final round in the series which will determine the state championship. Eight teams competing are Lansing Eastern, Alpena, Flint Central, Hamtramck, Howell, Ann Arbor, Battle Creek and Tecumseh. The topic for debate is "Resolved: that the government should provide complete medical care for all citizens at public expense."

Thus far Tecumseh team has been awarded the Detroit News trophy for winning 50% of their debates in the elimination series staged by the State Forensic Association, which began last November.

Approximately 50 schools which survived this series met February 8 for tournaments in eight Michigan cities.

Tecumseh won the tourney staged at Slocum-Truax High at Trenton, where Plymouth, Ypsilanti Central, Britton, Royal Oak Little Flower were also contestants, and were presened with a banner by the Michigan Forensic Association.

A win Friday would place Tecumseh High School in the semi-final debate to be held March 21 and would earn them a silver loving cup to be presented by the association.

The affirmative team is composed of Marian Murphy and Patsy Wilson.

A shop mathematics class, requested by employees of local industry, is meeting on Monday evenings with James McDowell, high school principal as the instructor. About 20 are enrolled in this class.

A class in physical education is being instructed by Myles Runk, high school coach, and about 60 adults are availing themselves of the training they receive each Monday evening in the high school gymnasium.

A new class is to be formed in the repair of home appliances and household repair and this group also will be instructed by Mr. Runk. Enrollments in this course may be made at the present time by calling the high school.

Tecumseh Wins L.C.A.A. Crown

EIGHT STRAIGHT VICTORIES RECORDED BY INDIANS; HUDSON HERE, FRIDAY

By Jim Sisson

Coach Myles E. Runk's fighting high school cagers latched on to another L.C.A.A. trophy by virtue of their liquidation of Addison last Friday evening, 42-20. It is the fourth county cage title for the Braves in six years and the second sports cup this season. Tecumseh having merited the football honors, also.

The war-painted Warriors were a bit wary on entering the Addison "crackerbox" gym, but quickly adapted themselves to their cramped conditions. The first period displayed little initiative as the Indians edged ahead 7-5, however.

In the second stanza, things were different as Bill Hayden got hot and opened up for the visiting tribe. In the meanwhile the Panthers were unable to tally a point and the Orange and Black leaped to a 22-5 halftime margin.

Without a let-up in the basket barrage, Co-captains Ben Hammack and LaMar Cheever began firing through the "beefy" Panther five where Hayden had left off. In the Addison dewilderment the Teepee Town quintet hung up 12 more markers to insure victory.

The Runk substitutes flowed on to the court for the final quarter and kept the situation well in hand to terminate the game with the 42-20 triumph and the county championship.

Ben Hammack copped the scoring laurels, ringing up 12 counters followed by Cheever with 11 for the Warrior cause. Bob Gray from Addison set the pace however, as he flipped in 17 of the Panthers' 20 points.

Doug McDowell slashed the way for the Tecumseh Reserve squad's eighth win as he netted 11 points in the preliminary.

With 13 straight triumphs dangling from the war belt the local tribe will engage the Hudson quintet in the season's finale before heading toward the tournaments March 6-7-8.

Hudson, in fifth place and having bowed to the Indians 25-16 earlier, looks like what may be a soft touch. But underneath the Tigers have been rapidly improving in the last two contests, knocking off Addison and Morenci in tough battles.

The Hudson squad will enter the Tecumseh hardwood tomorrow night as the underdog, but with a chance to better their record and mar the Braves' clean slate.

Home Folk Hold Peace Of World

DR. HAROLD DORR, TOWN HALL SPEAKER, SAYS ITS TIME FOR AMERICA TO THINK

The peace of the world will not be attained until folk at country cross-roads, in villages, small cities and metropolitan areas think on an international level, believe, sincerely, that their opinions and decisions are of global consequence, Dr. Harold M. Dorr of the political science department of the University of Michigan, Ann Arbor, indicated when he spoke at the second Town Hall, Monday evening at the high school. About 90 persons attended, and participated in the discussions that followed.

The United States, Dr. Dorr declared, as the result of World War II is now the dominant nation of the world with Russia the number two power. The world, therefore, is looking to America for leadership, for direction and for a formula that will bring social and economic peace. The speaker said that America must not forget that although it has only one-sixteenth of the world's population, it controls approximately one-half of the world's wealth. To a starving-war torn world, he pointed out, the control of such wealth imposes a tremendous responsibility upon its people.

Dr. Dorr raised many questions as to the course that might be pursued by the United States, but, in Town Hall fashion, he did no offer a solution to the problems. It is the people's responsibility, he believes, to discuss such matters and to reach a decision that will be workable, not alone in America but in the world. He pointed out that while America is sold on its democratic form of government, Russians, too, are sold on communism. Both nations are attempting to sell their form of government to a weary world. If America fails its responsibilities now, and Russia emerges later from behind its iron curtain as a dominant nation, strong economically and willing to assist less-fortunate nations, he questioned which nation might hold the respect of others at some future time.

Mrs. Truman Rentschler, president of the Town Hall council, presided at the meeting. The next session will be held probably the twenty-fourth of March, with the speaker to be announced.

FREEDOM IS FIRST

To the average American, who believes first and always in liberty, the most appalling trend in the world today is the growth of collectivism. Practically all of the nations of the Old World have turned their backs on freedom, and accepted, willingly or otherwise, the cruel ideology of the super-state. Under this system—collectivism — the individual is nothing, except insofar as he can eb used to serve the purpose of the government. The state is all.

This leaves the United States almost alone as the citadel of a tradition of freedom which goes back to the Magna Carta. And this imposes on the government and the people of the United States an enormous obligation—to prove that the dignity of the individual still lives, that the rights of man are a fact and not a myth, that freedom is a vital force that will not be denied.

This obligation can be discharged in only one way—by resisting every enroachment by the state upon privileges, and the rights of individuals. If we permit government to dominate us in our economic life, we will eventually have government of all other phases of our existance. Freedom is an absolute, once we temporize with it, we pave the way for its destruction.

Those nations which wish collectivism are entitled to it. But it must never be confused with freedom or allowed a foothold here in the United States if we hope to maintain our form of democracy.

Bert Solves the Labor Problem

You hear a lot about capital and labor nowadays, as if the two could never get together. But look at Bert Childers—who has 320 acres of producing land, a fair-sized herd of cattle, and two farm hands working for him.

If you called Bert a "capitalist" he wouldn't know what you meant, and neither would Spike and Sandy, the hired men. Bert works side by side with both of them; and in the evenings they sit around the fire together—sharing a friendly glass of beer or two.

If anybody has a beef—whether it's about wages or hours or equipment—they talk it over at those friendly evening sessions.

I don't say all labor problems are as simple as Bert's. But from where I sit, the basic principle applies to any farm or factory or business: A principle of confidence and mutual respect, of daily talks together in a friendly and congenial atmosphere.

What's smart for '47? BUICK!

White sidewall tires, as illustrated, will be supplied at extra cost as soon as available.

THAT grille's as fresh and fashion-worthy as a Paris label in a new bonnet.

That long, clean, sweeping-all-the-way-through fender line is as much a "must" with the style-wise as white tie with tails.

There's the sparkle of bright, fresh colors — the rich sheen of chaste chrome—the sleek, slick, able look of an express cruiser, shined and polished for Regatta Day.

But is this the only way in which Buick's smart? Not by a barrelful!

Look at the engine room in that bonnet — that means torrents of Fireball power to put the lift of a lifetime in every mile.

That hug-the-road look means steadiness always—and cushiony coil springs on all four wheels spell serene disregard of any road's rude jolts.

Look at the width amidships that gives you lolling room both front and back—and at push-button controls that not only raise and lower the top, but move door windows up and down and the front seat back and forth.

And look deeper. At engines so fine-made they keep their new-car liveliness seemingly forever. At stout metals and sturdy underpinning, at husky, curl-around bumpers, controls light as a ladyfinger; at wheels that curb heel-over on turns, and brakes both easy and sure.

Fact is, in this trim Convertible or any of the eight other body types, Buick's the smartest *buy* as well as '47's smartest *car*. It's the place where dollar-sense meets with style-sense to produce America's most wanted automobile.

Such being so — why hesitate? A day lost now in placing an order can be a week lost later in taking delivery, so — *get your order in now!*

LEGISLATURE PONDERS STATE TAX PROBLEMS

"Horse and Buggy" Constitution Gets Blame

By Gene Alleman
(Special To The Herald)

LANSING—Will the legislature take steps to revise Michigan's "horse and buggy" constitution?

Balked by a minority vote in the State Senate which buried his "repeal the sales tax amendment" program, Governor Kim Sigler favors legislation adoption of a bill to create a state commission for revision of the 1908-designed state constitution.

It is the governor's conviction that the root of Michigan's tax troubles lies in its outmoded constitution; that in the transition from an agricultural to an industrial economy local governments have sought to finance new services with a crazy quilt patchwork of makeshift taxes, most of which are collected by the state government and spent by local units of government and school districts.

What are the merits of the governor's proposal?

"Michigan cannot long continue to grow and prosper under the handicap of a antiquated tax and financial structure," Governor Sigler declared in his budget message. "I am convinced that we should have, at the earliest possible date, a complete revision of our total tax structure.

"This should not be done in a make-shift manner. It should be approached with the idea of getting at the cause for the present financial plight of the cities of Michigan. It should be done with full understanding of the problems of the schools. It must be done with an appreciation of the responsibilities of state government in the services it renders to the people.

"It must be considered in the light of the taxpayer and his ability to bear the burden of taxation . . . It must delineate clearly the responsibilities between state and local units of government — both for collecting and spending tax money in order that there shall be no wasteful duplication."

Governor Sigler pointed out these facts:

"Our predecessors attempted to meet these problems (needs for new services such as improved highways, better schools, etc.) as best they could with revenues derived from taxes upon the real and personal property of the state . . . In the attempts to meet the growing demands, real estate taxes increased to a point where the people rebelled and eventually resorted to a constitutional amendment in the form of a 15-mill limitaion."

Next, the Legislature turned to the sales tax.

"Since the sales tax was adopted," Sigler pointed out "state expenditures have increased $168 million or 151 per cent but it would be a mistake to think that this money has been spent by the state government for its own activities. It has increased its annual expenditures for direct state services to the people by 30 million dollars in this period, but at the same time the state's payments to local units of government have increased $138 million dollars."

It is the governor's thesis that we have completely overloaded our "antiquated tax structure" and that unless something is done soon the "props we have put under it from time to time are threatening to give way and let the financial house fall down upon our heads."

The Michigan Education Association, spokesman for school teachers, maintains that the legislature has failed to grant needed state aid and the voters' approval of the sales tax diversion amendment was evidence that "the people of Michigan are determined that schools shall be adequately financed," to quote from a February statement of Dr. A. J. Phillips, executive secretary.

The tax plight of Michigan cities is another case at hand. Migration of residents to outlying suburbs has aggravated the cities' problems.

Since you can't have your cake and eat it, too, it seems reasonable to conclude that the ultimate net result of all the jockeying by units of Michigan government will be more tax revenue in the aggregate from old and new sources. If public schools are to be improved, if cities are to get needed funds,

Will Discuss School Mergers

STATE TO PARTICIPATE IN MEETING TO BE HELD IN ADRIAN NEXT THURSDAY

An invitation has been extended to the public to attend a meeting to be held in the court house, Adrian, next week Thursday, March 13, at 10:30 a. m., at which time plans for the reorganization of rural schools will be discussed. Especially invited to the meeting are school boards and residents of districts where such proposals have been considered.

It was pointed out that this will be the first large meeting to be held in the county when the entire time has been given over to a general discussion of reorganization plans, and Mrs. E. T. Armstrong, county school commissioner, expressed a hope that there would be a large attendance at the sessions.

During the forenoon hours, two members of the Michigan Department of Public Instruction, Lansing, will speak, and in the afternoon there will be a panel discussion made up of lay folk and school superintendents. Grange and Farm Bureau members are urged especially to attend both the morning and afternoon meetings.

W. L. Berkhof, superintendent of Tecumseh schools, said today that he had been invited to take part in the afternoon discussion but because of a previous engagement it would be impossible for him to attend only the morning meeting. Mr. Berkhof said that he understood that the sessions were called for the purpose of familiarizing residents, parents and school officers of the state's views toward reorganization programs.

There has been considerable discussion of reorganization of school districts in this area, especially since the closing of the Ford-Edison operated schools in the Tecumseh district and in Macon. However, no legal steps have been taken, except in the Macon-Clinton area and in this instance petitions circulated were held to have insufficient signatures to bring the issue to an election.

Officers Are Elected By Teen-Age Canteen

The Teen-Age Canteen meeting held Friday evening in the Eagle hall was attended by over 40 young people. The following officers were elected: Miss Roberta Holmes, president; James Yeager, secretary; Bruce Jennings, treasurer, and John Ladd, chairman. The canteen is open Friday evenings for young people from 14 to 18 years of age. Hours are from 8 till 11:30, and all meetings are supervised.

COLUMBUS OFFICER SPEAKS TO NOMADS

At a special meeting of the Nomads, held Thursday evening in the K. of P. hall, Imperial Zamorin Jean Pennell of Columbus, O., conducted a school of instruction. The Nomads were presented with a large American flag by Robert Quackenbush. Lunch was served by Mrs. Lynn Hubbard, Mrs. S. N. Kring and Mr. Quackenbush.

The regular meeting of the organization will be held Friday evening, March 7.

MARRIED 50 YEARS

Mr. and Mrs. J. E. Powell observed their 50th wedding anniversary Wednesday at their home in Tekonsha. There was no formal celebration because of the condition of Mr. Powell who has been ill for several months.

Their daughter and husband Mr. and Mrs. Donald Beevers will spend Sunday with them.

MEETING POSTPONED

Because of the adult education program at St. Peter's church, Tuesday evening, March 11, the regular meeting of the W.C.T.U. will be postponed.

On Tuesday afternoon the W.C.T.U. executive board will meet at 2:30 at the home of Mrs. Perry Hayden.

DOYLE—BIRD

Heavy Voting Likely Monday

TWO TICKETS IN FIELD FOR VILLAGE OFFICES; POLLS OPEN FROM 7 A. M. TO 5 P. M.

With two tickets in the field for village offices, and with the polls open only between the hours of 7 a. m. and 5 p. m., spirited and heavy voting is expected here next Monday, March 10, when the residents of Tecumseh choose their officers for the coming year. Candidates elected at Monday's election will take office in April.

For the first time since 1936, two tickets will be presented to the voters when they visit the polls. The People's Party, which has been the only party presenting candidates for office here in more than a decade, will this year be opposed by a complete slate under the banner of the Progressive Party. Records at the village clerk's office show that about 1,300 persons are registered and eligible to cast their ballots.

The People's Party ticket this year is again headed by J. Floyd Elliott for president. Mr. Elliott has served several terms in the office, and previously as a member of the council. Others on the ticket are: for clerk, James M. Artman; for treasurer, Margaret L. Kidman; for assessor, Lester C. Rogers; for trustees, each for two years, Fay A. Whelan, Howard W. Truesdale and Joseph H. Rohweder. Only Mrs. Kidman and Mr. Whelan are new to the People's ticket, the others being present office holders.

On the Progressive Party's ticket, John C. Truesdale of the John C. Truesdale Monument Works, is seeking the office of president. Others on the ticket are: for clerk, Wade L. Jones; for treasurer, Charles M. Fay; for assessor, Thomas N. O'Hara; for trustees, each for two years, Archie W. Porter, Sr., Charles H. Mensing and George W. McCombs. All persons on this ticket are new to local politics except Mr. Jones, who has served Tecumseh for years as its clerk.

Election officials today urged voters to cast their ballots early, to avoid afternoon congestion, and also warned that there would be no evening voting, the polls closing at 5 p. m.

SCHNIERLA NOMINATED CLINTON SUPERVISOR

William Schnierla has been nominated for the office of Clinton township supervisor, at a caucus held on Monday evening. Mr. Schnierla will have no opposition, only one caucus being held. Del Jenkins has been serving as supervisor since the resignation of the late C. M. Halladay. Others nominated at the caucus are: clerk, Thomas Pence; treasurer, Mrs. Agnes Geiger; board of review, E. B. Rynd and Victor Voorhees; justices of the peace, L. J. Van Deusen and Dell Jenkins; constables, Julius Walker, O. B. Feldkamp, Charles Hause and Miss Lois Lancaster.

Humorist Speaks At Rotary Dinner

"DUSTY" MILLER, WILMINGTON, O., PUBLISHER, LADIES NIGHT GUEST

About 130 Rotarians, their wives and guests attended the annual Rotary-Ann dinner meeting of the Tecumseh club, Tuesday evening in the gymnasium of the high school. "Dusty" Miller, Wilmington, O., publisher and nationally known humorist, was the guest speaker.

"I didn't come to address you, I just came to visit with you, and to tell you some of the things that you already know," Mr. Miller said. "It's a fact, speakers who talk to audiences about things they (the audience) know nothing about, are not interesting." Mr. Miller then in his humorous way, "visited" with his audience for nearly an hour, pointing out that life is more or less what you make it, that good will is contagious, and that America, despite all of the grumbling and griping, is still the finest place on earth in which to live. The fellow who thinks he's had a rough day, the speaker declared, should be thankful that he lives in America for, no where else in the world would he be permitted to have lived his life as he had lived it on that "rough day." Miller has a style of humor all his own and it is easy to understand why he is in demand as a speaker from coast to coast.

Wade L. Jones, president of the club, presided at the meeting, and John R. Zeigler, chairman of the program committee, introduced the speaker. The Rev. Allan Ramsay asked the invocation, and music was furnished by Driscoll's orchestra. The 130 members and guests were seated at long tables, attractively decorated with daffodils, daisies and pansies. Corsages of gardenias and camelias were given to the ladies.

Phone Company Expansion Near

NEW CABLES TO BE LAID TO GIVE INCREASED SERVICE TO SOUTHERN MICHIGAN

The village council, in session Monday evening, approved plans submitted by the Michigan Associated Telephone Company for the improvement of its lines to areas in the southern and northern part of Tecumseh, especially in the vicinity of the Tecumseh Products Company's plant, the Quaker Oats plant and to residences being built to the south, west and northwest of the Quaker plant. The company's proposal calls for the laying of new cable on South Evans street, and on North Union street, to accommodate new homes being built in the northwest section of the village.

At the present time many new houses are being built in a subdivision south and west of the Quaker plant. Also, about a dozen new houses are being built on North Union street. It also was pointed out that added service is needed at both the Products and Quaker plants. Just how quickly the new lines can be made available was not said, but it is assumed that the work will start this summer.

The council disapproved a plan submitted by the Great Atlantic and Pacific Tea Company and Hubert Van Camp, whereby the village would maintain a parking lot, north of the A. & P. store. Reports of officers and department heads were read and placed on file, and current bills were audited and ordered paid.

The following officials were named for the village election, to be held next Monday: First precinct, R. W. Mead and Edward Smalledge, inspectors, Cecile Smith, inspector and clerk, and Iva Marsh, clerk. Second precinct, Luella McCoy and Doris Tonneberger, inspectors, Edna Codling, inspector and clerk, and Henrietta Lindsley, clerk. Extra inspectors are K.D Hall, H. H. Hanna, Florence Howe and B. B. LCAA Victors Win 14th Game

TECUMSEH DOWNS HUDSON HIGH TO COMPLETE AN UNDEFEATED RECORD

Tecumseh won out in the first round of the District Tournament at Dundee, Tuesday evening, as they downed the home squad, (Dundee), 32-29. Bill Hayden merited scoring honors with 12 points. This evening the Indians will engage the Monroe Catholic Central team at Dundee.

By Jim Sisson

The Tecumseh Indian cage squad of Myles Runk ended its regular season schedule last Friday, keeping a perfect record in trouncing Hudson, 39-31. The Braves had already annexed the LCAA championship, being three games out front from second place Morenci, but added to their long list of victorious engagements number 14 as they carried out the home court kill.

The Warrior quintet rolled very slowly in the initial quarters and held only a 11-7 edge following the opening stanza and were deadlocked 13-13 with the scrappy Tigers in the halfway intermission.

A look at the score board settled the thoughts of the county champs and they produced some of their finer coordination. Everybody hit the hoop for points in the big third period and spun the scoring to a 30-21 lead.

LaMar Cheever and Bill Hayden threw on most of the damage as the Tecumseh five steamed into the final quarter. But the scoring flash quieted down and the Indians ended the battle with only their 8 point edge. Cheever sunk 12 markers in his center position and Hayden tossed 10 into the net to head the Orange and Black's tallying in the league finale.

In the Reserve contest, the home town lads were not so fortunate and bowed to the Hudson second stringers 38-29. This gives the junior squad a won 8—lost 6 record for the 46-47 season.

It's Too Late To Worry After the Crash!

Protect Yourself With Insurance

MOST OF US WORRY. Some of us worry when it is too late. Such is the case of the man who, after his car has been involved in an accident, worries because he was not properly insured.

ARE YOU THAT MAN? Is your car protected by insurance? What would happen if your car became involved in a serious accident? Would you be protected, fully, by the insurance you now carry?

ANSWER THE QUESTIONS HONESTLY! You can't afford to be underinsured. Damage suits sometimes wipe out home and business.

SEE US FOR PROTECTION before it is too late.

Sister Kenny Fund Says Thanks To Local Givers

The Sister Elizabeth Kenny Foundation extended its thanks to th people of Tecumseh for their generosity in the 1946 fund appeal. The local campaign was directed by B. W. Hoffman and a committee of public-spirited citizens.

The 1946 drive was carried over into January, 1947, because of delay in securing campaign printing and supplies. However, this extension should not be confused with the 1947 appeal which will be conducted in September this year.

William G. Baxter, state administrator, announced that the Michigan Chapter of the Sister Kenny Foundation is pushing forward with an aggressive program to provide hospitalization for all polio victims in this state and to make available the complete and authentic Kenny treatment under the direction of technicians who have completed the full two-year course at the Kenny Institute in Minneapolis. This announcement provides real hope for infantile paralysis sufferers as better than 85 per cent of new cases treated by the approved Kenny method recoved completely and are not handicapped by crutches and steel braces.

BUYERS' MARKET RETURNING

In a recent issue of Nation's Business, Vergil D. Reed writes on the subject of "Retailers, Get on Your Toes!" Mr. Reed's thesis is simple but important—the buyer's market is rapidly returning, customers are becoming choosier, are thinking in terms of more and more and better goods and service for their money. Furthermore, he says, "Mass production is inescapably dependent on mass distribution and aggressive selling of more goods at lower prices. The job retailers do will determine largely both the degree of future prosperity we attain and its stability. Soon production will catch up with accumulated need for goods. When it does, the retailer's job will begin in earnest."

The progressive retailers of the country, chain and independent, are well aware of this trend. New innovations in displaying and marketing goods are being planned and tried. Stores are expanding their stocks of merchandise, to make sure that the maximum number of potential buyers will find what they want. Salespeople are being trained once again in traditional standards of courtesy and good service. Manufacturers' lines are being scanned critically, as buyers search for the best possible quality at the lowest possible price.

On the basis of the last available figures, something like 75 per cent of the retail business of this country is done by independent stores, 21 or 22 per cent by chains and the rest by minor forms of retailing. It is not expected that these proportions will show any particular change. But competition will get keener in all fields—and the merchant who wants his share of the business must get on his toes and stay there. The consumer is boss—and American retailing will spare no effort to see that his needs and desires are met.

From where I sit ... by Joe Marsh

A Definition of Our Town

Somebody defined our town just the other day as "A place where the people talk about you behind your back, and come to wait on you when you're sick."

I've got to admit there's something to it. A lot of our folks are inclined to be pretty outspoken and quick to criticize . . . even about little things, like a woman's hat, or a man's preference for a glass of beer, or the color of Cy Hartman's new barn.

But when anyone's in trouble, those differences and points of criticism are forgotten . . . and folks become neighborly and helpful, like they really are.

From where I sit, criticism never did much harm to anybody, so long as folks don't let it guide their actions . . . so long as they respect our individual preferences, whether they apply to hats or beer. That's the way it is in our town, anyway, and I hope that it's the same in yours.

A MESSAGE
To the Voters of Tecumseh

Here is a brief statement of the plans and policies of your new Progressive Party in Tecumseh. We believe that, after you read this statement, you will have the answers cleared to some of the questions and rumors you have heard, and which heretofore have been unanswered or answered erroneously.

1. We believe that it is sound business to have two parties in any government. Regardless of the party in power, we believe that a live minority group is important in municipal, state or federal government.
2. The Progressive Party is made up of interested residents of Tecumseh who have only one thought in mind—the future of their home community. We believe that such interest is important because Tecumseh is growing rapidly, and its future must be well-directed.
3. The Progressive Party is not sponsored, dominated or directed by any group or organization. It is entirely independent and represents a cross-section of the community. There was visible evidence of this statement at the caucus.
4. The Progressive Party believes that one of the most important assets of this community is Tecumseh Hospital, which is municipally owned. It agrees, wholeheartedly, with the statement of the chairman of its board of trustees, to the effect that enlargement must come if it is to continue to meet the demands of those it was intended to serve. Tecumseh can point with pride to this institution, and we believe that its services should not be limited by a lack of accommodations.
5. The Progressive Party realizes that new industry is constantly knocking at Tecumseh's door. It is the opinion of the members of this party that new industry should be welcomed. We believe that diversified industry is a good thing for any community, and that complete cooperation should be given to those who seek to make Tecumseh their home.
6. The Progressive Party believes that Tecumseh's present zoning ordinance should be revised or amended. We do not believe that business firms should be forced outside the municipal limits of the village because of too severe restrictions. Visual evidence of this need are the two implement firms' buildings, located outside Tecumseh on West Chicago boulevard road.
7. The Progressive Party does not believe in high taxes. Voters should bear in mind that tax "ceilings" are fixed by law, and that the rate cannot exceed 15 mills except when such increase is approved by the voters and taxpayers themselves. Therefore, no party or group in power can levy taxes beyond the 15 mill limit without the consent of the taxpayers. Likewise, no member of the council can spend the taxpayers' money without the consent of the entire council.
8. The Progressive Party believes that the biggest factor in the success of government is the complete cooperation between the government and the people it serves. We believe that the public should be well informed at all times as to the reasons for all public acts, and we believe that when they have such information they will be glad to co-operate with such a government. After all, the people—the taxpayers and the voters—are the government. Those in public office are only the servants of the people.
9. If you are interested and believe in the aforesaid statement of policies and facts, we, of the Progressive Party, invite your support at the polls in Tecumseh on Monday, March 10, 1947.

Here Are Your Progressive Party Candidates

"SPEEDY" by BUTLER Motor Sales

You May Fool a Motorist But You Can't Fool His Motor

It's entirely possible to fool a motorist—a fellow who's not a mechanic—but the one impossible thing to do is to fool the car that he's driving. It can't be done.

Changing a few adjustments, installing parts that are not necessary, never will correct the basic things that need to be done to make a motor operate smoothly, and to the customer's satisfaction.

If your car has been acting up and you have been unable to find the trouble, we'd like to have an opportunity to find it for you. In our reorganized service department, now in charge of Harry Schuch, we're in a position to give you GUARANTEED service every day in the week.

Come in for an honest diagnosis. Harry will give it to you and tell you the most economical way out of your difficulty.
